

NEW TS6

NEW HOLLAND

TS6.130

POWER THAT'S

EFFICIENT, COMFORTABLE AND AFFORDABLE.

DEDICATED, UNCOMPROMISED, SMART

Introducing the new face of standard tractors and the best choice for farmers looking for a strong, modern and affordable all-purpose tractor: NEW TS6 Series tractors. These standard tractors are anything but basic. They're big on power and efficiency, loaded with comfort, and ready to handle your toughest tasks.

YOUR CHOICE OF CAB, ROPS, 2WD, 4WD

Four TS6 models range from 90 to 150 PTO horsepower and fit a wide range of farming practices. Choose a model with two- or four-wheel drive, with an open ROPS platform or New Holland's VisionView™ cab.

MORE COMFORT AND VISIBILITY

Operating ease and superior visibility are part of TS6 tractor design. Both cab and non-cab models feature 360-degree visibility and the CommandArc™ console with convenient, natural placement of controls that require minimum effort.

COMPLETE LOADER-READY OPTION

You can order both TS6 Plus and Value tractors with complete factory installation of everything needed for a matching New Holland front loader.

Tier 4B TS6 Models	Engine	Rated Engine HP	Rated PTO HP
TS6.110	4.5L, 4-cyl	110	90
TS6.120	4.5L, 4-cyl	119	96
TS6.130	4.5L, 4-cyl	130	105
TS6.140	4.5L, 4-cyl	139	115
TS6.120 Hi Clear	4.5L, 4-cyl	119	96

AVAILABLE IN A PLUS OR VALUE PACKAGE

You can pick and choose your options if you like, or choose from two preferred customer packages.

Features	TS6 Value	TS6 Plus
Transmission with Power Shuttle	8 x 8	16 x 8
Transport Speed	30 KPH (19 MPH)	40 KPH (25 MPH)

Cab Features	Mechanical suspension seat	Air suspension seat* with swivel, plus instructor seat, rear wiper/washer, radio, overhead high-visibility panel

*Cab versions only

Deluxe interior with air suspension seat and folding instructor seat (Plus Package)

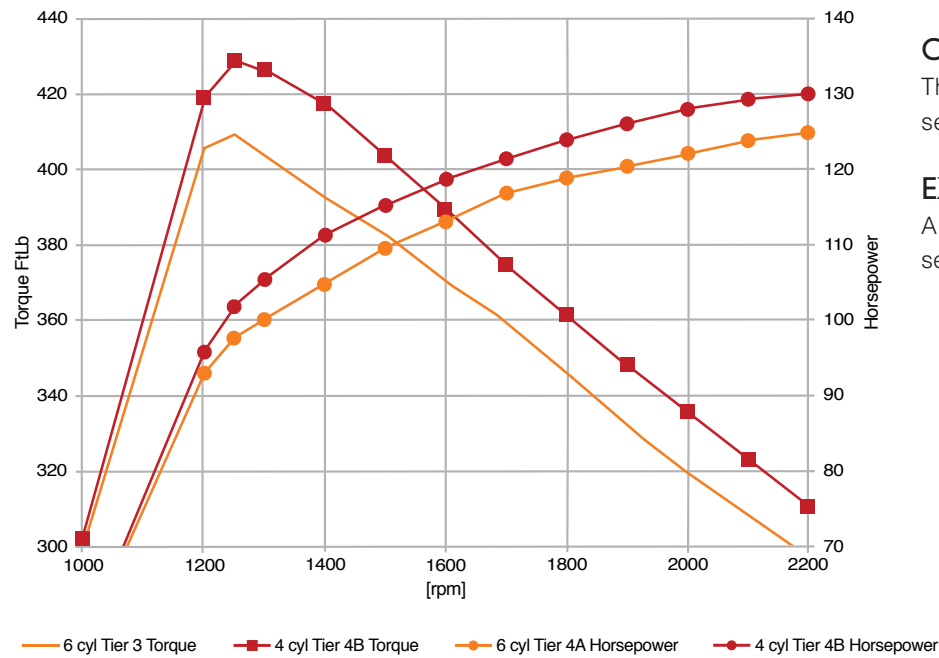

COMPLETE MORE WORK WITH LESS FUEL.

A HUGE LEAP IN PERFORMANCE AND EFFICIENCY

TS6 Series engines are Tier 4B emissions certified, and deliver power and performance without compromise. Using the latest New Holland engine technology results in a big jump in power and torque compared to previous TS6 tractors with Tier 3 engines.

MORE POWER AND TORQUE THAN PREVIOUS TS6 MODELS

TS6 four-cylinder engines maximize the power delivered per cylinder for performance that's significantly better than the Tier 3 engine used on previous TS6 models. You get better throttle response and a noticeable increase in loaded engine performance in difficult crop or soil conditions.

ECOBLUE™ HI-eSCR TECHNOLOGY—ONE SIMPLE SOLUTION

New Holland's ECOBlue™ HI-eSCR after-treatment system is a simple solution that not only reduces emissions, but also improves fuel efficiency so you complete more work with less fuel.

ECOBlue™
HI-eSCR

ELECTRONICALLY CONTROLLED FOR BETTER PERFORMANCE AND RESPONSE

With four valves per cylinder, and the electronically controlled common rail fuel system, these engines generate more torque, more quickly and hold it longer for better lugging ability.

COMPLETE ACCESS FOR EASY CLEANING AND MAINTENANCE

The TS6 hood flips open without tools, providing unrestricted access for servicing.

EXTENDED 600-HOUR SERVICE INTERVAL

A longer 600-hour service interval means you stop less often for service.

MORE COMFORT.

BETTER VISIBILITY. A SMOOTHER RIDE.

Whether you choose a TS6 tractor with an open, flat-deck platform or the exclusive New Holland VisionView™ cab, you will experience industry-leading comfort and control.

VISIONVIEW™ CAB

The VisionView cab features two wide clear doors, a large window in back and an expansive windshield with a sleek, curved roofline that gives you excellent visibility. An optional high-visibility roof panel expands your view even higher so you get an effortless view to a raised loader bucket. The panel also opens for added ventilation. Dual-fan cooling and heating includes 10 vents to keep you comfortable no matter what the weather. A deluxe air suspension seat and full-size, cushioned instructor seat is included in the Plus package and is optional on the Value package.

COMFORTABLE FLAT-DECK PLATFORM

If you choose a TS6 tractor without a cab, you'll find the spacious, open operator platform with ROPS is a great place to work. The true flat deck gives you plenty of foot and legroom since all pedals are suspended and there's no driveline hump. The seat and tilt steering wheel adjust for your comfort, and the dash-mounted instrument cluster gives you a clear view of operating information.

IMPROVED LIGHTING

The VisionView cab features eight work lights—four in front and four in back—for working at night or in low light. Non-cab models feature a rear work light mounted on the ROPS for continued work after dark.

COMMANDARC™ CONSOLE FOR EASY CONTROL

The ergonomic CommandArc™ puts all major controls right at your fingertips, including hydraulic remotes.

STRONG.MODERN.AFFORDABLE.
