

A PARTNER FOR EVERY JOB

Road Maintenance Package

Planer

Compactor

Pickup Broom

CASE Construction specifically designed the Road Maintenance package to grant versatility and ease of operations to Thai contractors and construction companies, and ultimately support their business in meeting tight project deadlines and avoid hefty penalties on late delivery of jobsites.

Road Maintenance Pro Package

Planer

Slot Cutter

Compactor

Pickup Broom

The Pro Package gives Thai contractors and construction companies additional flexibility of working on road and parking lots repairs, as well as bid for more efficient utility works. Only CASE Construction offers you patented solutions which improve productivity and easy operations.

Basic Road Construction Package

Multi Bucket

Pickup Broom

A great, affordable and efficient solution specifically designed by CASE Construction to dramatically improve Thai contractors operations in road construction and general construction sites. No more dependence on multiple equipment thanks to CASE Basic Road Construction package: just one machine for handling materials in tight buildings as well as larger jobsites!
