CASE CERTIFIED USED: A CONSTRUCTION EQUIPMENT MACHINE AS GOOD AS NEW

INSPECTED, TESTED, PROTECTED AND CERTIFIED

Discover a new way to own a CASE machine - inspected, tested, protected and certified to the highest standards.

Each CASE Certified Used machine is taken through a rigorous maintenance programme, performance improvement finetuning and an up to 120-point inspection before it's customer ready.

Then, it is packaged with a 6 months / 750 hours maintenance and repair contract for complete peace of mind. And just like new, with a CASE Certified Used machine you get access to the same benefits including:

- + CNH Industrial Capital financing
- + CASE SiteWatch™ GPS fleet management system
- + CASE SiteControl™ machine control solution

- + **6 months / 750 hours**
maintenance and repairs included
- + UP to **120-point** inspection

CASE CERTIFIED USED LOOKS GOOD, PERFORMS AS NEW

- + **SiteControl™** ready for access to machine control solutions
- + **Seven-step** certification process
- + Less than **3000 operating hours**, for compact line machine
- + Access to **CNH Industrial Capital** financing plans
- + **Full preventative maintenance** history
- + Less than **four years old**
- + **Genuine CASE parts**
- + Less than **6000 operating hours**, for heavy line machines
- + **12-month guarantee** on all parts replaced during certification
- + Fully compatible with **SiteWatch™** fleet management system

The offer may differ in the reader's country.

Please ask to check with local Dealer for availability, details and full terms & conditions.

MAKING A USED MACHINE CASE CERTIFIED USED

Each CASE Certified Used machine goes through a rigorous inspection, testing and maintenance programme on its way to becoming certified. You know you're buying as-new CASE quality.

SEVEN STEPS TO AS-NEW QUALITY

1 IDENTIFICATION

Potential CASE Certified Used machines, usually ex-demo and ex-rental fleet, are identified by official CASE dealers.

2 QUALIFICATION

Initial qualification checks are carried out:

- + Machine is less than 4 years old
- + Machine has less than 6000 hours of operation for heavy line and less than 3000 hours for compact line
- + Machine has full preventative maintenance history

3 PREVENTATIVE MAINTENANCE

CASE approved dealers carry out a full CASE preventative maintenance service, checking and testing every part of the machine including:

- + Safety equipment
- + Cab and controls
- + Engine
- + Cooling system
- + Fluids/lubricants
- + Hydraulics
- + Electrics
- + Powertrain
- + Ground engaging tools
- + Undercarriage
- + All attachments

4 REPLACEMENT WITH CASE GENUINE PARTS

Any part of the machine that is not tested as good or better on inspection is replaced with CASE Genuine Parts. All parts carry the standard CASE 12-month guarantee.

5 PERFORMANCE IMPROVEMENT PROGRAMME (PIP)

Each CASE Certified Used machine is then taken through its paces to ensure that it is demonstrating as-new performance. Any part not performing to the required standard is replaced with new CASE Genuine Parts and retested to ensure that the standards have been met.

6 UP TO 120-POINT INSPECTION PLAN

The CASE Certified Used machine is then scrutinised inside and out and top to bottom

by your official CASE dealer. Using up to 120 inspection points we leave no part of the machine unchecked. We check everything from the appearance of the machine and any wear and tear right through to the internal workings of the engine and the performance of the hydraulics.

7 CASE CERTIFICATION

When the maintenance, performance and inspection process is complete, and the machine has passed every check, the official CASE dealer provides the documentation to CASE for final approval. Once the machine has completed the approval process, the CASE Certified Used certificate and stickers are sent to the dealer ready for customer delivery and because it's a CASE Certified Used, 6 months / 750 hours of maintenance and repairs are included.

ACCESS A WORLD OF CONTROL

Your CASE Certified Used machine is as good as new, so you have access to many of the same services as a new machine.

DRIVING DOWN THE TOTAL COST OF OWNERSHIP

Choosing a CASE Certified Used machine already means a lower total cost of ownership, but the benefits don't stop there.

You'll also have the option to sign up to a tailored maintenance programme through your local CASE dealer. Preventative maintenance helps to keep your fleet running smoothly, reducing the risk of breakdowns and ensuring that your machines continue to work in the most efficient and cost-effective way possible.

In turn, this further drives down the total cost of ownership, making sure that you get the most out of your CASE Certified Used machine.

THE LATEST IN FLEET MANAGEMENT WITH CASE SITEWATCH™

All CASE Certified Used machines are compatible with our telematics control software. CASE SiteWatch™ puts you in the driver's seat no matter where you are, remotely providing comprehensive information on your entire fleet anywhere, anytime. Gather critical data on machine performance and location and make decisions fast to keep your fleet productive, efficient and profitable.

PRECISION CONTROL WITH CASE SITECONTROL™

The control doesn't stop with fleet management. Access precision machine control with the CASE SiteControl™ system, compatibility assured on all CASE Certified Used machines. Enhance performance and drive profitability by perfecting your workflow. CASE SiteControl™ combines tailor-made software and hardware to control positioning and measuring tasks on site.

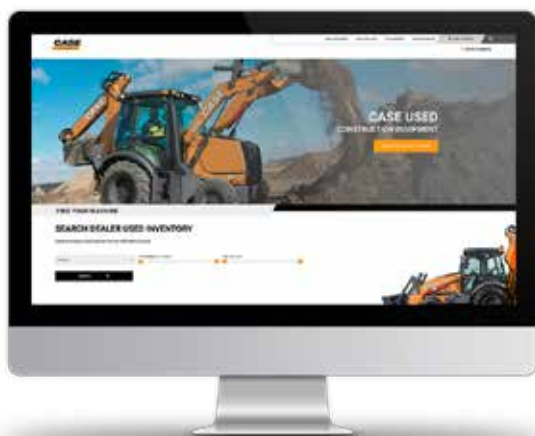

SPREADING THE COST

Just like a new machine, a CASE Certified Used machine is eligible for financing through CNH Industrial Capital.

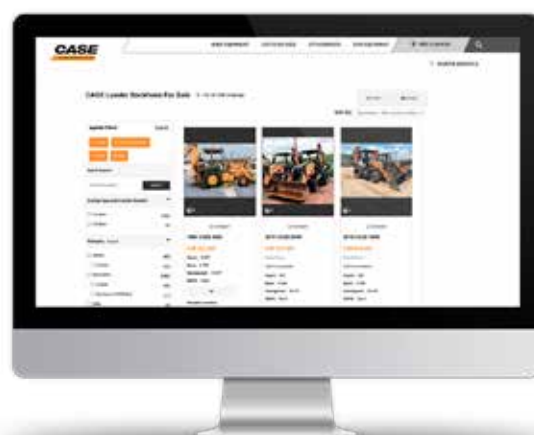

FIND YOUR CASE CERTIFIED USED MACHINE

Finding your CASE Certified Used machine couldn't be easier.
Visit your local CASE dealer to see the available machines in your area or go online to **www.equipmentused.casece.com**

Choose the machine and location and set the parameters for engine power, price, engine hours and year.

All available machines will be shown on the results page.
You can then filter the selection to show only CASE Certified Used machines-look out for the logo on the results.

Click on 'view details' to see more information and the dealer contact details. Whether you're searching online or visiting your dealer...
Be Sure. Be Certified.

Only machines that have been through our comprehensive certification programme will have the logo:

CertifiedUsed

BUILDING A STRONG CASE.

Since 1842, at CASE Construction Equipment we have lived by an unwavering commitment to build practical, intuitive solutions that deliver both efficiency and productivity.

We continually strive to make it easier for our customers to implement emerging technologies and new compliance mandates.

Today, our global scale combined with our local expertise enables us to keep customers' real-world challenges at the center of our product development.

The vast CASE dealers' network is always ready to support and protect your investment and exceed your expectations, while also providing you with the ultimate ownership experience.

Our goal is to build both stronger machines-and stronger communities. At the end of the day, we do what's right for our customers and our communities so that they can count on CASE.
