CONSTRUCTION PARTS AND SERVICE SOLUTIONS

Every CASE machine is backed by more than 300 North American dealer locations, to help you achieve the best cost of ownership for your operation through comprehensive service solutions and a full range of parts options.

Full Range of Parts Options
+ CASE genuine parts
+ CASE Reman (remanufactured) parts
+ All-makes parts

Comprehensive Service Solutions
+ Latest machine updates
+ Qualified technicians
+ Quick diagnosis
+ Warranty protection

CASE GENUINE PARTS

Engineered and built to the exact OE specifications to protect your equipment’s health, promote maximum performance in the toughest conditions, and prolong the life of your machine.

Maintenance

Lubricants
+ No.1 Engine™ Oil
  - CK-4 API classification (15W-40) means excellent fuel economy, shear and oxidation stability
  - Best-in-class 500 hour drain intervals (0W-40/10W-40)
+ Hy-Tran® Ulraction™ Hydraulic/Transmission Fluid
  - Industry’s highest level of water tolerance
  - Zinc-free formula
  - Superior shear stability
+ Actifull™ OT Extended Life Coolant
  - Extended-life coolant with OAT additives – up to 6,000 hours/6 years
  - Superior protection against liner cavitation

Filters
+ Durably constructed, rigorously tested and fully approved by CASE engineers to ensure you get the best heavy-duty protection for your equipment
+ Full range of filters available:
  - Hydraulic filters
  - Fuel filters
  - Engine oil filters
  - Engine air filters
  - Activated carbon fresh air cab filters

MagnaPower™ Batteries
+ Premium heavy-duty battery built to handle the vibration and jolts of tough, off-road conditions
+ Epoxy anchoring reduces grid plate vibration and short-circuiting, holding much better than commonly used hot-melt glues
+ Superior intercell connectors prevent cell-to-cell leakage on steep grades to ensure reliable battery operation
WEAR AND REPAIR PARTS

Rubber Tires and Tracks

+ Two types of high-performance rubber tracks available for mini excavators and compact track loaders:
  - HXD (Extreme Heavy-Duty Tracks)
  - SD (Standard Heavy-Duty Tracks)

+ Wide selection of rubber tires available for skid steer loaders, compact wheel loaders and tractor loaders/loader backhoes
ATTACHMENTS AND BUCKETS

All of our high-productivity attachments and buckets have been designed specifically for your CASE machine and thoroughly tested by CASE engineers to take on your most challenging construction applications.

Attachments

+ Engineer reviewed and tested for fit and function for approved machine models
  - Skid steers and compact track loaders
  - Wheel loaders
  - Tractor loaders/loader backhoes
  - Excavators
+ Plug and Play: All connections (quick disconnects) and configurations (hose length, hose routing, GPM flow, etc.) are ready from the start and avoid retrofits – saving you time and money
+ Offer over 30+ attachment families across multiple, world-class suppliers:
  - Augers
  - Hammers
  - Brooms
  - Laser grading boxes
  - Cold planers
  - Mulchers
  - Compactors
  - Pallet forks
  - Grapples (brush, utility, construction, large capacity)
  - Rakes (auto, landscape, power box, root)
  - Snow (blades, blowers, buckets, pushers)
  - Window guards
Buckets

- Strict adherence to OE specifications minimizes risk of interference/contact with boom or cab, ensuring proper fit between the bucket and the CASE machine:
  - Skid steers and compact track loaders
  - Wheel loaders
  - Tractor loaders/loader backhoes
  - Excavators
- Buckets designed for stringent ground penetration, improving fuel consumption and diminishing machine wear, while improving efficiencies
- Maintains and optimizes machine break out force
- Aggressive digging profile for full loading and proper clean out
- SmartFit™ bucket tooth system comes standard on CASE buckets, and features a hammerless tooth-to-adapter locking system that simplifies installation and tooth change-out, and improves safety
CASE REMAN PARTS

Used parts are examined, brought back to the latest OE specifications and tested to original performance requirements using state-of-the-art techniques, strict salvage guidelines, advanced manufacturing systems and unequaled quality control.

The Value of Reman

+ **Reliability, not liability:** CASE remanufactured parts are engineered specifically for CASE machines, minimizing risks and improving mechanical dependability.
+ **Good as new – and then some:** When possible, a core is machined and brought up-to-date with the latest specs to ensure the product is as good as new.
+ **Increased uptime:** Get machines up and running faster with drop-in assemblies.
+ **Consistent production:** CASE remanufactured components are built by trained technicians who build hundreds of the same products each year.
+ **Warranty protection:** CASE remanufactured parts carry a same-as-new or better-than-new warranty.*
+ **Lowered total cost of ownership:** In all machine life-cycle segments, the total cost of ownership is reduced.

ALL-MAKES PARTS

Maintenance parts for all makes and models of machines.

**Fleetguard® Filters**

+ Over 9,300 products covering the widest range of filters in the heavy-duty industry
  - Hydraulic filters
  - Fuel filters
  - Air filters
  - Coolant filters
  - Lube filters

**Exide® Batteries**

+ Complete line of batteries available for all applications
  - Heavy-duty commercial
  - Heavy-duty trucks
  - Light-duty trucks
  - Automotive

*When installed by an authorized CASE dealer.*
COMPREHENSIVE SERVICE SOLUTIONS

Through our network of CASE dealers, customers have access to the latest machine updates, qualified technicians, quick diagnosis and warranty protection.

+ Dealers have access to the latest operational, service and repair information direct from CASE, ensuring up-to-date upgrades to your fleet for more dependable machine performance
+ CASE technicians train on the latest advancements in repair, maintenance and technology specific to CASE equipment, providing expert services to strengthen your operation
+ Service tools and proprietary software, available exclusively to CASE dealers, quickly diagnose machine performance issues to keep your machines up and running
+ New or remanufactured parts installed by a CASE dealer are covered under warranty for both parts and labor, protecting your investment
+ Powered by Parts Store, the MyYard app helps customers manage their equipment and connect with their local dealer by enabling them to catalog equipment, email part pick lists and access part diagrams

Leica Geosystems’ iCON portfolio through CASE Construction Equipment offers you tailor-made hardware and software solutions for all positioning and measuring tasks in road and general construction.

Intelligent and easy to use, the customizable solutions enable you to enhance your performance and increase your profitability through perfecting your workflow.

+ Increase efficiency + Minimize errors and avoid costly rework + Increase machine utilization

Information is power. The data provided by telematics systems, at its most basic level, helps equipment owners make better decisions about how they run their business. By taking that basic data and adding some critical thinking to it can reveal new insights into the productivity and efficiency of your fleet.

+ Increased productivity + Accurate job costing + Dependable security
BUILDING A STRONG CASE.

Since 1842, we at CASE Construction Equipment have lived by an unwavering commitment to build practical, intuitive solutions that deliver both efficiency and productivity. We continually strive to make it easier for our customers to implement emerging technologies and new compliance mandates.

Today, our global scale combined with our local expertise enables us to keep customers’ real-world challenges at the center of our product development. This focus has led to numerous innovations like Ride Control™, EZ-EH controls, blade shake, PowerLift™, over-center boom design and the peace of mind that only CASE ProCare provides.

Every CASE machine is backed by more than 300 North American dealer locations, thousands of OEM, remanufactured and all-makes parts, and flexible financing and insurance options that provide the kind of reliable, steadfast support you expect from a professional partner.

We are passionate about improving the lives of others, whether investing in our veterans or raising awareness about local infrastructure initiatives through Dire States. Our goal is to build both stronger machines — and stronger communities.

At the end of the day, we do what’s right by our customers and our communities so that they can count on CASE.
