580N BACKHOE LOADER

580N Backhoe Loader

THE BEST GETS BETTER.

Announcing the Tier 4 Final 580N backhoe loader. We've taken the backhoe that set the standard for the industry and made it even more productive. A simple SCR (Selective Catalytic Reduction) engine provides more horsepower. New options like our push-button ECO-mode, auto-idle and auto-shutdown improve fuel efficiency.

And with a new universal coupler, it's more versatile than ever. Of course it still offers the real difference makers – ProControl, Comfort Steer™, Ride Control™ and an over-center backhoe design. In other words, it's still the best. Just better.

580N Highlights

- 1 **Exclusive ProControl swing dampening system** comes standard and minimizes backhoe rebound to provide precise control.
- 2 **Over-center backhoe design** provides better balance for smoother roading and also creates a better departure angle.
- 3 **Heavy-duty loader** designed with long arms for easier truck loading and in-line, parallel linkage for better balance with uneven loads.
- 4 **Auto-Ride Control™** (optional on 4WD models) helps with load retention by cushioning loader arm bounce at elevated speeds.
- 5 Exclusive to CASE, the **Comfort Steer™** option saves time during repetitive loader tasks by cutting lock-to-lock turns in half.
- 6 **New fuel efficiency options** include auto-idle, auto-shutdown and ECO-mode, which provides full power to the backhoe while in neutral.
- 7 **The industry's most maneuverable controls** with infinitely adjustable pilot control towers, a control pattern selector and adjustable wrist rests.
- 8 Floor-to-ceiling windows and a low-profile hood provide **maximum visibility** all around the machine.
- 9 Rear-quarter window opens 180° for an unobstructed view, enhanced airflow and easy communication with spotters around the machine.
- 10 **Adjustable SmartClutch** lets operators customize the feel of forward-to-reverse transitions (aggressive, moderate or soft) to suit their preference.
- 11 **New universal backhoe coupler** option fits Cat® and John Deere attachments for expanded versatility.
- 12 N Series buckets come standard with the innovative **SmartFit™ bucket tooth system**, which has heavy-duty, self-sharpening teeth and a hammerless fastener system for easy installation.
- 13 **Exclusive "Easy Flex" side lights** are adjustable to provide overlapping fields of coverage for greater illumination at night.

SCR – A Strong Tier 4 Final Solution.

CASE chose an SCR (Selective Catalytic Reduction) Tier 4 Final solution to meet emissions regulations without sacrificing strength. That's because SCR is an after-treatment system. It lets the engine breathe easier and run at peak performance, which translates to maximum power. Plus, SCR is simple. No new filters. Just pour a little DEF (Diesel Exhaust Fluid) and go.

Over-Center Backhoe Design.

Our revolutionary over-center backhoe design locks the boom in toward the machine, transferring at least 15% of its weight to the front axle, which drastically improves stability to minimize "porpoising" during roading. You'll retain more material and comfortably travel up to an outstanding 24 mph to, from and around the site.

Cut Turns In Half With Comfort Steer™.

Exclusive to CASE, the Comfort Steer option reduces lock-to-lock rotations when moving from full right to full left (and vice versa). You can load, stockpile and backfill considerably faster and more easily navigate tight material yards with less operator discomfort throughout the day.

DIMENSIONS

580N

A. Transport Height	133 in. (3 367 mm)
B. Overall Transport Length	280 in. (7 103 mm)
C. Dump reach at full height, 45° dump	31.5 in. (801 mm)
D. Height To Bucket Hinge Pin Fully Raised	135 in. (3 417 mm)
Maximum Digging Depth, Standard/Extendahoe®	14 ft. 9 in. (4 484 mm)/18 ft. 3 in. (5 539 mm)

NOTE: Dimensions taken with 4WD, 19.5 L x 24.0 rear tires, and Long Lip bucket.

SPECIFICATIONS	580N
Engine Make/Model	FPT F5BFL413C
Emissions Certification	Tier 4 Final
Gross HP – hp (kW)	90 (67)
Peak Torque – lb-ft (N·m)	306 (415)
Displacement/ Cylinders – in. ³ (L)	207 (3.4)/4
Auxiliary Hydraulic Flow – gpm (L/min)	28.5 (108)
Loader Lift Capacity – lb. (kg)	6,803 (3 086)
Loader Bucket Breakout Force – lb. (daN)	10,622 (4 724)
Backhoe Lift Capacity at Ground Level – lb. (kg)	2,858 (1 297)
Backhoe Bucket Breakout Force – lb. (N)	11,517 (51 228)
Operating Weight – lb. (kg)	17,751 (8 052)

Standard on all N Series backhoe loaders, CASE SiteWatch telematics breaks the boundaries of fleet management by allowing you to monitor and manage multiple machines from your office, wherever that may be. No more manually tracking down engine hours and fuel levels. Get real-time performance metrics, idle-time analytics, scheduled maintenance intervals and programmable security alerts sent to any computer, anywhere.

Maintenance Made Easy.

When you buy a CASE, you want it to last. We make it simple. The N Series is no exception. From swing-out coolers and outboard-mounted disc brakes to ground-level site gauges and grouped service points under the flip-up hood, you can do daily maintenance in a matter of minutes. Plus, with the new SCR engine, there's no new maintenance needs.

SAFETY™ NEVER HURTS

Always read the Operator's Manual before operating any equipment. Inspect equipment before using it, and be sure it is operating properly. Follow the product safety signs and use any safety features provided.

NOTE: All engines meet current EPA emissions regulations.

NOTE: All specifications are stated in accordance with SAE Standards or Recommended Practices, where applicable.
