CASE TELEMATICS

SiteWatch

 **SiteWatch™**

IT'S NOT DATA. IT'S INTELLIGENCE.

Equipment telematics only works if it draws out insights and guides users to actions that improve the operation, utilization and efficiency of the fleet. The all-new CASE SiteWatch telematics platform delivers a new and intuitive dashboard, simplified navigation and practical reporting capabilities that improve everything from fleet health to employee productivity.

CASE SiteWatch highlights include:

- + New dashboard featuring five key tools for total fleet management.
- + Simplified reporting and fleet information — available in the office, in the field or on the road.
- + Compliant with the Association of Equipment Management Professionals (AEMP) 2.0 telematics standard — deployable with mixed fleets.
- + Standard for three years on all CASE heavy equipment with CASE ProCare; Standard on all CASE backhoes; and available as an option on other CASE equipment.
- + Ability to share access with dealer service departments to make preventive maintenance more collaborative and to identify equipment issues before downtime occurs.

FLEET WISDOM

SIMPLE FLEET MANAGEMENT

Always know where each machine is, what its status is, and if service is required.

UNDERSTAND UTILIZATION

Knowing when and how equipment is used improves profitability and helps make better business decisions.

ANALYZE PRODUCTIVITY

Achieve a new understanding of the productivity of your equipment and your crew.

PREVENT DOWNTIME

Identify potential issues and address them before they become downtime events.

IMPROVE ESTIMATING

Accurate tracking of machine use and performance sets the foundation for reliable forecasting and bidding.

ANYTIME. ANYWHERE.

Access critical fleet data and productivity intel at home, in the office or in the field.

COLLABORATE ON SERVICE

Let your dealer service department be your second set of eyes and ears for equipment care.

BETTER REPORTING/RECORDS

Achieve greater insight into your equipment, and establish trends and a historical perspective of total fleet performance.

GREATER SECURITY

Geofence machines, identify unauthorized use and locate equipment that has strayed from the yard or jobsite.

BUILDING A STRONG CASE.

Since 1842, we at CASE Construction Equipment have lived by an unwavering commitment to build practical, intuitive solutions that deliver both efficiency and productivity. We continually strive to make it easier for our customers to implement emerging technologies and new compliance mandates.

Today, our global scale combined with our local expertise enables us to keep customers' real-world challenges at the center of our product development. This focus has led to numerous innovations like Ride Control™, electro-hydraulic controls, blade shake, PowerLift™, over-center boom design and the peace of mind that only CASE ProCare™ provides.

Every CASE machine is backed by more than 300 North American dealer locations, thousands of OEM, remanufactured and all-makes parts, and flexible financing and insurance options that provide the kind of reliable, steadfast support you expect from a professional partner.

We are passionate about improving the lives of others, whether investing in our veterans or raising awareness about local infrastructure initiatives through Dire States. Our goal is to build both stronger machines — and stronger communities.

At the end of the day, we do what's right by our customers and our communities so that they can count on CASE.
