PRO-HARVEST SUPPORT DEALER DIRECTORY

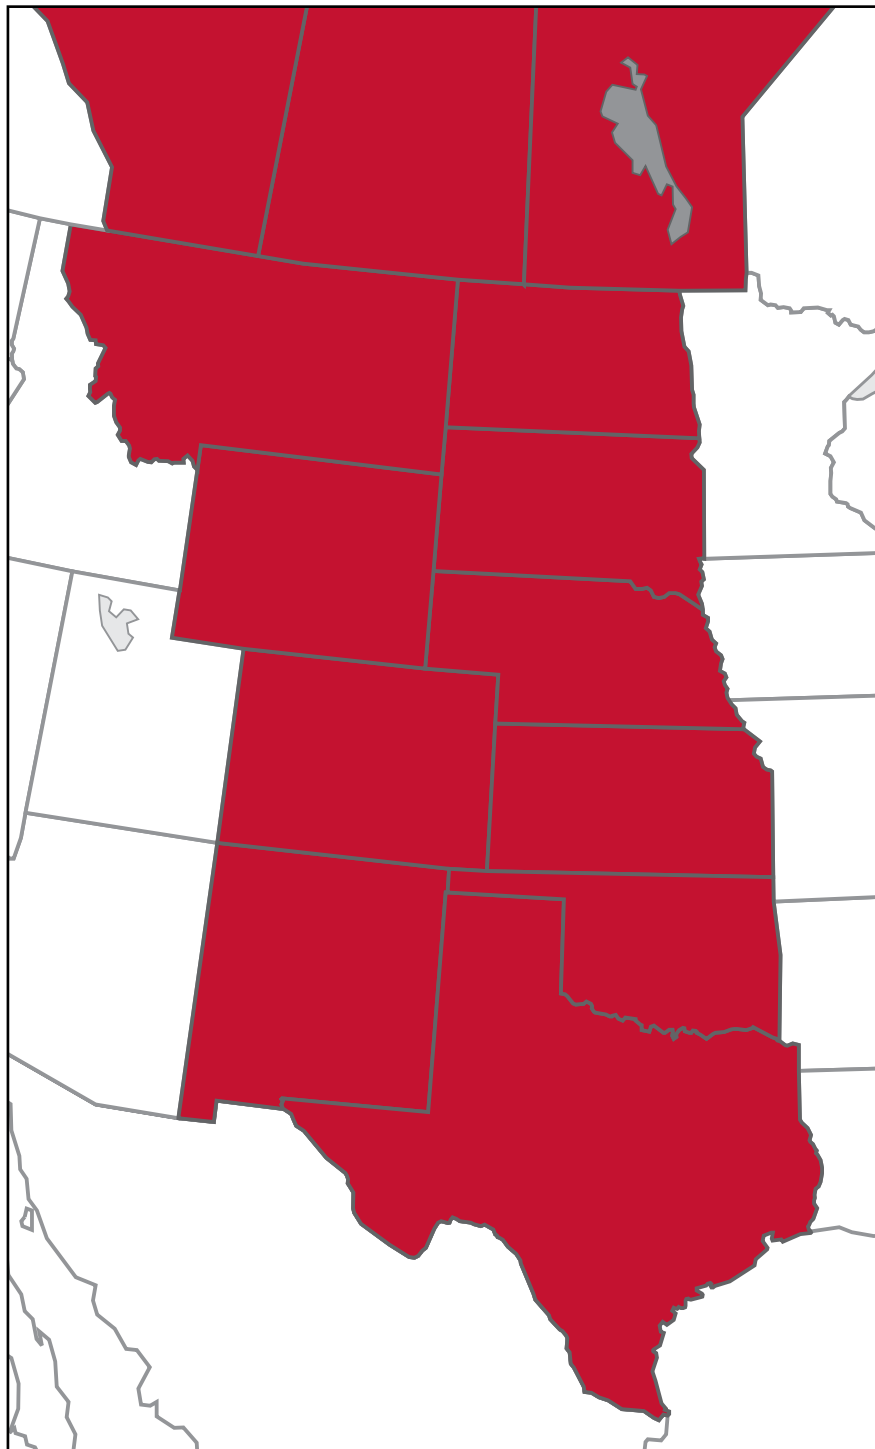

CASE IH

Pro-Harvest Support® & Custom Harvesters: An Unbeatable Partnership.

When you need us, just call!

This directory contains all the phone numbers of Case IH dealerships that can help you while you are in the heart of the wheat belt. Whether you need service, assistance, or parts, call us! Or, make arrangements through your own dealer. We will offer all the resources we have to help you.

And one of our key resources is the Pro-Harvest Support Teams and their trailers loaded with combine parts. If you have need to contact the teams directly, dial:

EAST TRAILER

1-717-725-0892

WEST TRAILER

1-262-995-5327

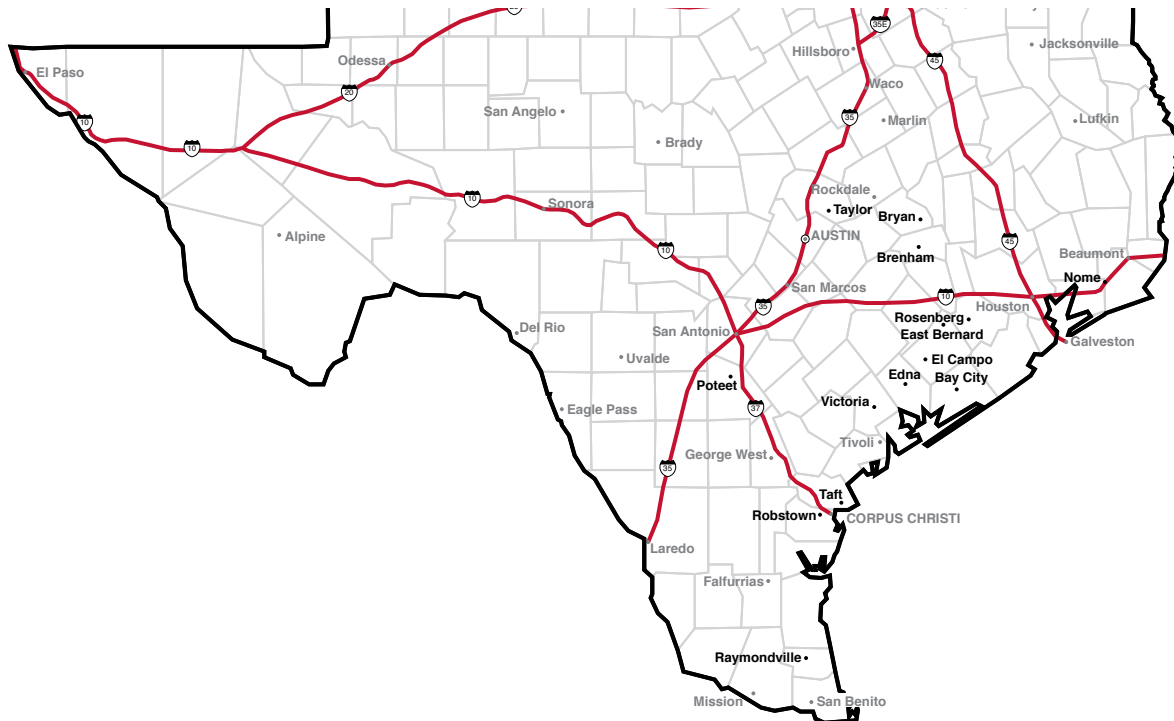

So, keep this directory with you. It tells you where you can get real “hometown” service all along your harvesting route.

The map displays the state of North Dakota with its county boundaries. Major cities and towns are marked with black dots and labeled. A network of red lines represents the proposed rail routes. The routes are primarily oriented horizontally across the state, with several vertical and diagonal branches. Key features include:

- Major Cities and Towns:** Fortuna, Crosby, Bottineau, Belcourt, Langdon, Cavalier, Pembina, Grafton, Devils Lake, Cando, Rugby, Minot, Stanley, Williston, New Town, Watford City, Garrison, Underwood, Washburn, Harvey, Fessenden, Hurdsville, Carrington, Cooperstown, Northwood, Mayville, Arthur, Casselton, Fargo, Jamestown, Bismarck, Dickinson, Beach, Belfield, Mandan, Sterling, Linton, Wishek, Kulm, Lamoure, Lisbon, Wahpeton, Lidgerwood, Ellendale, Hettinger, Bowman.
- Highways:** State and federal highways are shown as thin grey lines with their respective shields (e.g., 85, 2, 52, 83, 1, 29, 94, 8, 73, 94, 83, 1, 29).
- Rail Routes:** Represented by red lines. A thick red line runs horizontally through the center of the state, passing through Bismarck and Dickinson. Other red lines branch off to various locations, including Williston, Grand Forks, and Fargo.

Observe These Rules for a Safer Harvest Season.

1. Be sure you and your operators re-read the Operator's Manual and instructions to review all safety information and instructions.
2. Be sure you and your operators read and understand the safety messages of all decals on your combine.
3. Never start or move the combine until you are sure everyone is out of the way.
4. Always put the shift lever in neutral before starting the engine.
5. Do not allow riders.
6. Turn off the engine and remove the key before cleaning, adjusting, or lubricating.
7. Always stop combine engine when refueling. Do not smoke while refilling the fuel tank.
8. Solidly block or use the safety stands on the header before working beneath it.
9. Keep ladders, steps, and platforms free of trash.
10. Always keep all guards and shields in place.
11. Regularly clean crop debris accumulations from all shields to reduce fire potential, including shields for the reverse motor, batteries, engine compartment, and straw spreader drive areas. Keep engine drives, exhaust systems, and all moving parts free of chaff to reduce fire potential also.
12. Equip your combine with at least two fire extinguishers—one near the cab and another near the engine compartment. It's a good idea to have at least one water-charged extinguisher on your combine.
13. To remove the radiator cap and avoid scalding, let the system cool before turning the cap to the first notch then wait until all pressure is released.
14. Dress appropriately when performing service work.
15. Set parking brake, shut off engine, and remove the key before leaving the combine.
16. Drive at moderate speeds in the field and on the road. Keep combine in gear when going down hill.
17. When transporting on the highway, double-check bridge and overhead power line clearances.
18. Take scheduled breaks. Fatigue leads to accidents.
19. Ensure your battery is properly vented before changing, to allow gas to escape.

What Parts Should You Take Along on Your Custom Run?

Don't chance downtime! A well-organized Custom Combiner's crew is always prepared for the "ordinary emergencies", prepared with an adequate stock of the most commonly needed parts and supplies.

AUGER HEADER PARTS

Center Divider kit, residue spreader	51474747			This kit updates to new center whales tail, manual	1.5 hrs	30, 40, 50 series
Spreader motor covers to windrow chute	51429904		47683793	Replaces motor cover with windrow chute	1.5 hrs	230/240
Pivot Spout Kit	47797225		47800116	Pivot spout kit early common cab may require LH H-bridge	1.5hrs	Common cab
6 Lamp HID light kit common cab	84558140		47553931	6 HID lights for Common cab	2.5hrs	Common cab
2 Lamp HID light kit common cab	84558136		47553926	2 HID lights for Common cab	2 hrs	Common cab
LED distance light kit	51407099		47944226	LED distance lighting kit for common cab built after Feb 2013	1 hr	Common cab
Trailer Hitch Kit	47743763		47409831	Rear axle mounted trailer hitch	1.5 hrs	30/40 series
Air Compressor Kit	47825379		47812487	Air Compressor kit	6 hrs	7240
Air Compressor Kit	47825382		47812487	Air Compressor kit	6 hrs	8240
Air Compressor Kit	47825385		47812487	Air Compressor kit	6 hrs	9240
Air Compressor Kit	84216071		84324385	Air Compressor kit	4 hrs	8230/9230
Air Screen Sucrose Brush Kit	47839105		47812488	Brush kit recommended for use with chopping corn head	2 hrs	7240/8240
Air Screen Sucrose Brush Kit	47835567		47812488	Brush kit recommended for use with chopping corn head	2 hrs	9240
RAS brush kit	84111565		87753295	Internal rotating brush for rotating metal RAS	5 hrs (2 actual caseIH)	10/20/30 series
Camera Kit	47635060		47635055	Kit to install 3 cameras on combines not pre-wired to monitor includes cameras ext cables and mounting hardware.	6 hrs	30 series not prewired
Camera Kit	47822379		47823395	Kit to install 3 cameras on combines pre-wired to monitor includes cameras ext cables and mounting hardware.	4 hrs	40 series
Track install Kit	51568791		48082900	Kit includes final drives, mounting hardware and hydraulics	18 hrs	30, 40 series
Blue Tooth Radio Kit	47637735		47622869	Wiring, mic and antenna for BT radio, radio not included	8.5 hrs	40 series

Parts information current at time of printing.

Separator Adjustments for Major Crops

How to make the adjustments:

To correct any of the specific harvesting problems listed on the left side of each of the following separator adjustment tables, simply follow and complete only those adjustments described at the top of each column and which are numbered. The numbers indicate the sequence in which you should make the specified adjustments. A symbol or letter appearing below a number indicates the type of adjustment action to be performed. See the key on each adjustment table.

Note: A common adjustment mistake is setting rotor speed too low. High moisture crops will require higher rotor speeds.

Adjustments for maize, milo

HARVEST CONDITION	ADJUSTMENT							
	INSPECT CONCAVE FOR PLUGGING	ADJUST ROTOR SPEED	ADJUST CONCAVE	ADJUST CAGE VANES	CONCAVE WIRES	ADJUST FAN SPEED	ADJUST CHAFFER	ADJUST SHOE
Clean Grain Sample								
Damaged Grain	1	2 ▼				3	0	
Heavy Stems		3 ▼				2	1 C	
Fines/Trash		2 ▼	3		1 ▲

KEY

O = Open
C = Close
A = Add

R = Remove/Rearward
F = Forward

▲ = Increase
▼ = Decrease

Adjustments for barley

HARVEST CONDITION	ADJUSTMENT							
	INSPECT CONCAVE FOR PLUGGING	ADJUST ROTOR SPEED	ADJUST CONCAVE	ADJUST CAGE VANES	CONCAVE WIRES	ADJUST FAN SPEED	ADJUST CHAFFER	ADJUST SHOE
Clean Grain Sample								
Damaged Grain		2	3			4	1	0
Excessive Stems/Trash		4	▼			2	3	1
Rotor Losses	1		2	C			3	0
Unthreshed Heads		2	1	C				
Excessive Power Consumption		1	▲					
Grain Loss Over Chaffer					2	1	3	0
Grain Blowing Over Chaffer					1	2	0	
Shoe Sieve Overloading					3	2	1	0

*Increase fan speed when sample caught at end of chaffer. Decrease fan speed when sample caught 2 to 3 feet from end of chaffer.

Seed Loss Table for Axial-Flow® 8120, 9120, 7230, 7240, 7250, 8230, 8240, 8250, 9230, 9240, 9250

SEEDS LOST PER SQUARE FOOT TO EQUAL ONE BUSHEL PER ACRE LOSS (1) GATHERED DIRECTLY BEHIND SEPARATOR (2)

Crop	25' (7.6 m)	30' (9.1 m)	35' (10.7 m)	40' (12.2 m)	45' (13.7 m)	UNIFORM SPREAD LOSS (3)
Barley	85	102	119	136	153	17.4
Flax	503	604	705	806	906	103.8
Oats	45	54	63	72	81	9.3
Rice	82	99	115	132	148	17
Rye	179	214	251	286	322	37
Sorghum	136	163	188	216	244	28
Soybean	16	21	25	28	30	3.6
Wheat	93	111	130	148	167	19.2
Red Kidney Beans	7	8	9	10	12	1.2
White Pea Beans	11	13	15	18	20	3.7

(1) Seeds lost per square foot to equal one bushel per acre loss.

(2) Gathered directly behind separator.

(3) 36' (11.0 m) 40' (12.2 m).

CORN LOSS TABLE

Corn Head Rows	Row Spacing	Separator Loss In Kernels Per Ft ² (1)	Uniform Spread Loss (2)
6 Row Narrow	28 Inch (711 Mm)	5.0	1.84
	30 Inch (762 Mm)	5.3	1.84
6 Row Wide	36 Inch (914 Mm)	6.5	1.84
	38 Inch (965 Mm)	6.8	1.84
	40 Inch (1016 Mm)	7.1	1.84
8 Row Narrow	22 Inch (559 Mm)	5.2	1.84
	28 Inch (711 Mm)	6.7	1.84
	30 Inch (762 Mm)	7.1	1.84
8 Row Wide	36 Inch (914 Mm)	8.8	1.84
	38 Inch (965 Mm)	9.3	1.84
	40 Inch (1016 Mm)	9.8	1.84
12 Row Narrow	20 Inch (508 Mm)	7.1	1.84
	22 Inch (559 Mm)	7.9	1.84
	30 Inch (762 Mm)	10.7	1.84

(1) The figures are approximate and can vary with kernel size and seed corn variety. Kernels were gathered directly behind the separator and do not include row loss due to corn head. No spreading device, such as a straw spreader, is used.

(2) Uniform loss in number of kernels per square foot that can be spread evenly over an acre to equal a loss of one bushel per acre at 80,000 kernels per bushel.
