READY FOR ANY JOB.

Case IH Farmall compact A series tractors are rugged, reliable machines that tackle tough chores – plain and simple. A straightforward mechanical shuttle or hydrostatic transmission and easy-to-use controls let you focus on your task without distractions from complicated machine operations. The turbo diesel Tier 4 B/Final engine provides all the power you need for loading, blading, tilling, mowing and more. And the 3-point hitch and PTO allow you to attach a wide variety of implements.

The one-piece hood opens with the push of a button, allowing quick and easy access to all maintenance checkpoints. Cold weather starting is a snap with standard glow plugs.

The electronically-controlled indirect fuel injection provides:

- Faster throttle response and recovery under load
- Quieter engine operation with less vibration, reducing operator fatigue
- Greater torque rise creates greater lugging power to pull you through tough situations like moving heavy loads with a loader or cutting thick grass
- 300-hour engine oil service interval reduces downtime and maximizes uptime
IT’S TIME TO GET BACK TO THE BASICS.

With many standard features and numerous available options, the Farmall compact A series tractors are easy to operate, allowing you to complete those every day chores without hassle.

ROOM TO WORK. SIMPLE OPERATION.

The Farmall compact A series tractors open, semi-straddle operator’s platform is stamped for good grip and to drain water and debris, with easy entrance from the right or left side. They feature a foldable ROPS for working in areas with low overheads. A FOPS canopy is also available for protection from sun, rain, etc.

All controls are within easy reach, and their functions and positions are common with those of the rest of the Farmall tractor series. The easy-to-read digital dashboard gauges feature temperature and fuel gauges, tachometer, hour meter and operational indicators just behind the standard tilt steering column.

PICK A TRANSMISSION THAT WORKS FOR YOU.

Choose from a straightforward mechanical shuttle or a hydrostatic transmission with easy-to-use controls that let you focus on your task without the distraction of complicated machine operations.

The standard 12 × 12 mechanical shuttle transmission has 3 ranges and 4 speeds for a total of twelve forward and twelve reverse gears.

An optional 3-range hydrostatic transmission offers infinitely variable speeds with a simple, comfortable 2-pedal operation – one forward and one reverse – as well as standard cruise control.

3-POINT HITCH.

The standard 3-point hitch has fixed lower links, single turnbuckle adjustment for leveling, and telescopic stabilizers. With a hitch lift capacity of 1,808 lbs. the Farmall compact A series tractors can pull a variety of implements from rear-mount finishing mowers to rotary tillers, disk harrows and more. Choose from the standard independent PTO with electro-hydraulic engagement with 540 rpm or the optional dealer-installed mid-PTO with 2,000 rpm for a mid-mount mower or front mount snow blower.

Two position drawbar comes standard on the Farmall compact A series tractors allowing you to customize hitched implements to your desired position.
A  Clutch pedal
B  Synchro shift control lever (gear models)
C  Digital dashboard and gauges
D  Electrohydraulic PTO engagement
E  Brake pedals
F  Parking brake
G  Hand throttle
H  Foot throttle
I  Factory-installed loader joystick
J  Differential lock pedal
K  Transmission shift lever (gear models)
L  Hitch lift control
M  Adjustable suspension seat - flips forward to keep clean and dry
N  4WD lever
O  Transmission range selector lever
P  3-point hitch drop rate control knob, under front of seat

Shuttle shift (gear transmission) model shown.
TIRE OPTIONS FOR ALL YOU DO.
Agricultural, turf and industrial tread pattern tires are available and recommended for Farmall compact A series tractors.

R-1 – AGRICULTURAL TREAD
Standard traction for agriculture applications.

Front Tires | Rear Tires
---|---
7 × 14 6PR (R1), opt. | 11.2 × 24 4PR (R1), opt.

R-3 – TURF TREAD
Provide the least ground disturbance and are ideal for mowing and ground maintenance.

Front Tires | Rear Tires
---|---
25 × 8.50-14 4PR TL Turf (R3), opt. | 41 × 14.00 × 20 4PR (R3), opt.

R-4 – INDUSTRIAL TREAD
Excellent utility tread that provides long life on hard surfaces like pavement plus a smoother ride while roading.

Front Tires | Rear Tires
---|---
25 × 8.50-14 6PR (R4), std. | 43 × 16.00-20 4PR TL (R4), std.
CASE IH LOADERS ARE READY TO WORK FOR YOU.

A loader turns a tractor into a versatile, powerful workhorse. And loaders are very easy to install on Farmall compact A series tractors: just drive the tractor into the loader, put in the pins, attach the hydraulics and start working! The sleek design of the loader arms let you easily see to the top of the bucket and around the front tires.

A range of front and rear weights and ballast boxes are also available.

QUICK AND EASY ATTACHMENTS AND IMPLEMENTS.

With a heavy-duty 3-point hitch, high-capacity responsive hydraulics and independent PTO, your Farmall compact A series tractor is ready for action with the L340A loader and attachments, and any of the following implements:

- Side-discharge mid-mount mowers
- Rear-mount finishing mower
- Rotary tiller
- Backhoe
- Rotary cutter
- Box blade
- Landscape rake
- Disk harrow
- Rear, 3-point mounted blade
- Wheel rakes

A FULL LINE OF LOADERS, ATTACHMENTS AND IMPLEMENTS.

Choose from more than a dozen optional attachments that are quick and easy to switch out.
