3 MODELS, 3 TRANSMISSIONS, 1 AWARD-WINNING MAXXUM SERIES

YOU'VE NEVER HAD A WIDER CHOICE

Whether you choose our entry level ActiveDrive 4 transmission with 16F/16R 40 km/h four-speed powershift model, our award-winning ActiveDrive 8 Multicontroller or our ultimate Maxxum CVXDrive, you can be sure of a machine with a comprehensive specification, ready to handle every job around the farm. All are available in 115, 125, 135 and 145 (4 cylinder) and 150 (6 cylinder) HP options.

"THE ACTIVE DRIVE 8 GEARBOX IS REALLY NICE AND SMOOTH, AND AFTER A MANUAL IT IS SO EASY TO USE." Jamie Bucknell, Devon

The Maxxum ActiveDrive 8 Multicontroller has the lowest fuel consumption ever recorded for a four-cylinder tractor and won Tractor of the Year 2019! It comes with electronic hitch control as standard, up to 4 mechanical rear remote valves and simple-to-operate controls.

"I'M A BIG FAN OF THE FARMALL - THE CAB IS LAID OUT WELL AND IT GETS ON WITH ANY JOB WE THROW AT IT."

Willie Drohan, County Waterford

FARMALL C

The compact design of a Farmall C conceals an engine and transmission that punches way above its weight. Switch easily between yard jobs in confined spaces and a full day in the field. Our 95, 105 and 115 HP models are available with optional front and rear heavy-duty axles that increase payload to 6,200kg and all are available loader-ready. Ask your dealer about this season's deals.

Order a Case IH loader with your tractor and take advantage of further savings as well as the peace of mind of a single warranty. Loader offer available with selected Farmalls, plus all Luxxum and Maxxum models - ask your dealer for details.

PUMA POWER

Designed for the most demanding applications in arable, contracting and livestock farming situations, the Case IH Puma range (models from 140 to 240 HP) is available with three transmission options, a well-established reputation as a premium product... and plenty of power.

“OUR FARM IS ON HEAVY SOIL SO WE NEED SOME POWER BEHIND US TO WORK THE GROUND IN WINTER AND THE 175 GIVES US ALL THE POWER WE NEED AND MORE.

THE FUEL CONSUMPTION IS AS GOOD ON THIS ONE AS THE 150-HORSEPOWER MACHINE WE HAD BEFORE AND CVX IS BRILLIANT AND MAKES IT A GREAT TRACTOR TO DRIVE.”

Muir Young, Ayrshire

**DON'T
FORGET
THE AIA!**

FROM 1 JANUARY 2019, THE ANNUAL INVESTMENT ALLOWANCE (AIA) WILL RISE FROM £200,000 TO £1 MILLION, FOR A PERIOD OF TWO YEARS.

If your businesses has its financial year ending in April, ordering machinery now may allow you to take delivery before your tax year-end, making the most of the tax savings to be gained through the AIA.

MAKING GREAT BALERS EVEN BETTER

LARGE BALERS

When you buy a Case IH baler you're guaranteed a rugged, robust and reliable machine, whichever model you choose.

Our new generation LB 4 large baler series features revisions and refinements throughout, to create machines even more productive than their predecessors, producing bales from 80x70 to 120x90 cm. Each one is designed to make your baling more efficient, more profitable and more of a pleasure.

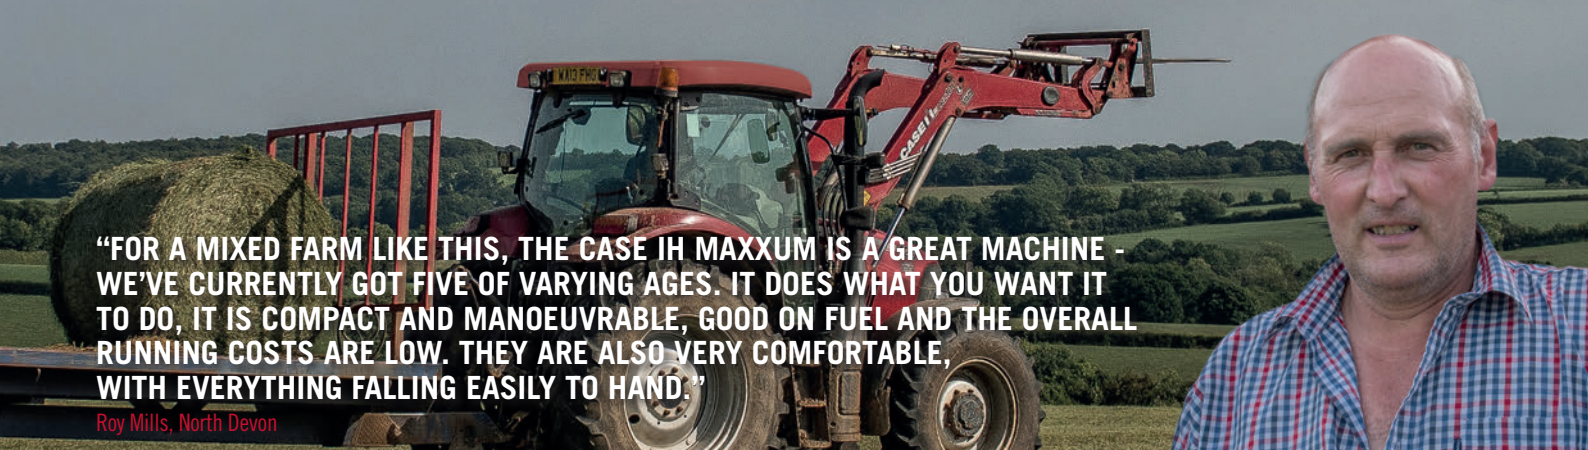

ROUND BALERS

We know you need to be able to bale quickly and at a high and consistent density.

We've worked with customers to design our new range of round balers and have integrated a multitude of features into the new RB design so that every model is capable of following the largest combine or baling the heaviest crop with remarkable speed and efficiency. The bale size can be altered and monitored from the comfort of the tractor seat and the wrapping system is ultra-reliable – so there's no need to worry about the crop type or conditions... simply follow the swath. Ask your dealer about the wide range of fixed and variable chamber options available.

"FOR A MIXED FARM LIKE THIS, THE CASE IH MAXXUM IS A GREAT MACHINE - WE'VE CURRENTLY GOT FIVE OF VARYING AGES. IT DOES WHAT YOU WANT IT TO DO, IT IS COMPACT AND MANOEUVRABLE, GOOD ON FUEL AND THE OVERALL RUNNING COSTS ARE LOW. THEY ARE ALSO VERY COMFORTABLE, WITH EVERYTHING FALLING EASILY TO HAND."

Roy Mills, North Devon
