AFTER SALES PARTS & SERVICES

YOU HAVE SPECIFIC GOALS.
WE PROVIDE SPECIFIC ANSWERS.

OUR SKILLS AND EXPERTISE SERVING YOUR PERFORMANCE

Your work environment and conditions require the best results at all times from your farm machinery. At Case IH we have designed all of our products and services around one principle: helping you achieve the maximum, around the clock, all year long.

QUALITY IS WHAT WE DO

Case IH After Sales Parts and Services guarantees you the best quality in its manufactured products, customer service, support, expertise and advice. This ensures you the best availability, reliability and efficiency for your day to day operations.

PRODUCT RANGES DESIGNED TO MEET YOUR SPECIFIC NEEDS

SMART SERVICE SOLUTIONS TO HELP YOU MAKE YOUR TARGETS

REACTIVE, ADVANCED LOGISTICS TO GIVE YOU WHAT YOU WANT, FAST.

ORIGINAL PARTS FOR OPTIMAL OPERATIONS, SIMPLY DEMAND THE BEST IN THE FIELD

You can put your total trust in Case IH original parts to give your machine a new lease of life and keep it performing like on Day 1.

Manufactured to original manufacturer specifications and subjected to rigorous quality testing, your certified original replacement parts offer the best possible value for money for your Case IH machine. Why look elsewhere?

**12-MONTH GUARANTEE,
DESIGNED TO GO INFINITELY
FURTHER**

The reliability and wear resistance of our original replacement parts are the basis for a twelve-month guarantee, but you're sure to continue to benefit from top manufacturer quality for much longer.

**24-HOUR DELIVERY
+ SPECIALIST SUPPORT
AND ADVICE**

To help you keep downtime to a minimum and stay productive, we guarantee next-day delivery. And you also get to benefit from the help and support from our experts for their fitting and operation.

**EXCEPTIONAL
VALUE FOR MONEY
ALL YEAR ROUND**

Thanks to the original manufacturer quality and proven reliability of your original parts, you will change them less often than cheaper imitations. And that means just one thing: outstanding value for your business!

Getting the best out of your Case IH machine couldn't be easier. With **original parts quality** and unparalleled service from **people who know your job**, you can stay out in the field longer and deliver the **best results** for your business.

REMAN

ORIGINAL PERFORMANCE GUARANTEED

With Case IH's remanufactured parts, your machine will work just as hard and efficiently as when it first rolled off the production line.

Reman gives you the **quality and durability** that you have come to expect from Case IH equipment.

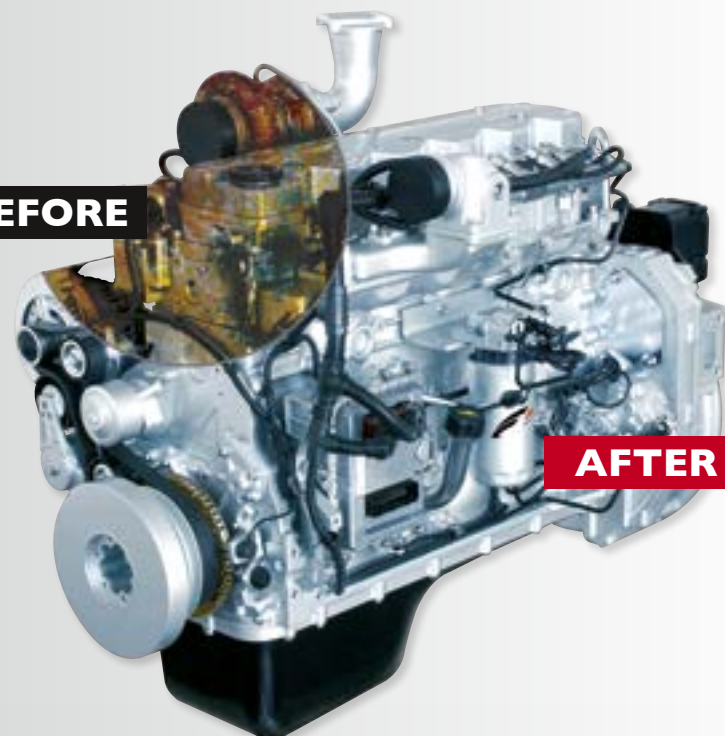

WHAT REMAN CAN DO FOR YOU

Look at the remanufactured components on offer from Case IH:

- Transmissions
- Injectors
- Turbos

BEFORE

AFTER

THE 5 POINT REMAN CHECK-LIST

- **12 MONTH WARRANTY**, just like original parts
- **ISO 9001 CERTIFIED**
- **TESTED RIGOROUSLY IN A LABORATORY** to the highest quality standards
- **COMPLIANT** with European emissions levels
- **CONTROLLED** fuel and lubricant consumption

ADVANCED FARMING SYSTEMS

GETTING THE MOST OUT OF YOUR LAND MANAGEMENT

Today farmers and agricultural contractors can use the latest advanced technology to drive their productivity levels even higher on their Case IH machinery. With the suite of Advanced Farming solutions, optimal spraying, spreading, fertilising and harvesting becomes child's play.

Equipping your farm machinery with the range of AFS solutions give you better land coverage, lower fuel and input costs, longer operating hours and better working conditions. You also make lower environmental emissions and compact your land less.

ADVANCED FARMING SYSTEMS IN DETAIL

GPS Guidance solutions

Map out the best land coverage, increasing the area planted and reducing mileage covered. Our three touch screen GPS devices are accurate, flexible solutions, offering a range of guidance patterns, delivering you improved knowledge on your land and enhancing its treatment.

Assisted steering solutions

Increase your productivity whilst taking the strain off the operator. Connected to the GPS display, our EZ Steer, EZ Pilot and Autopilot solutions simply turn the wheel in the place of the driver, allowing him to work longer and concentrate his energy on implement work.

NEED ASSISTANCE?

If you need help setting, adjusting or troubleshooting your AFS equipment, simply give our specialists a call on our dedicated AFS hot-line. You will receive expert advice on dealing with any issue you have and you'll be out in the field again in double-quick time.

AFS SUPPORT CENTER
080 081 312

Easy financing

Investing in state-of-the-art equipment can be a strain on the wallet, so Case IH offers customers special low-interest finance deals at acquisition. Why not have a chat with your Case IH dealer?

DEALER INSTALLED ACCESSORIES

BOOST YOUR PERFORMANCE ON DEMAND

Every farm operation is unique, and your own requirements will probably differ from those of your neighbour. That's why Case IH offers a range of add-on Dealer Installed Accessories to customise the features of your machine and help you get the best out of it.

Designed by Case IH engineering specialists for your Case IH vehicle, our DIA kits respond to an extensive range of requirements out in the field and help you improve your performance and reduce your costs.

HOW DIA KITS HELP YOU DELIVER

OUTPUT

Ballast weights
These enable greater efficiency through better vehicle balance, grip and stability, as well as reducing tyre wear and fuel consumption when driving on a hard surface such as a road.

COMFORT

Adjustable fenders
Not only is the cab and operator better protected from mud projections, but these fenders also facilitate tighter steering

SAFETY

Rotating beacons
Stay out in the field longer and safer with these bright beacons equipped with advanced dust and moisture protection. They are also 30% brighter than current European norms.

INSTALLED BY EXPERTS

Your DIA will be fitted by the specialists in your own Case IH dealership, giving you a quality guarantee that you rightly expect from our equipment and services.

PARTNER SUPPLIERS

EVEN MORE QUALITY AND VALUE AT YOUR CASE IH DEALERSHIP

With the range of accessories offered in your dealership by our specially selected partner suppliers, you're sure to find the way to boost your operations and stay on track.

Your Case IH dealer gives you simplified and direct access to a host of partner-branded add-on equipment at specially negotiated rates.

Our partner suppliers have been carefully selected for their top quality and reliability, as well as the relevance of their products and their compatibility with your machine.

Fitted in your own dealership by our specialists who know you and your machine, we can guarantee that you will get just as much performance out of our partners' accessories as what you would expect from Case IH original parts.

CASE IH PARTNERS: LOOK OUT FOR THE FOLLOWING BIG NAMES:

FRONT LOADERS – NEW TECHNOLOGY FROM STOLL

The specialists in front loaders have developed a brand new Return-to-Level (RTL) system for improved loading and lower operator effort.

WHAT IT DOES:

With the push of a button, the tool is automatically returned to a previously set working position.

BENEFITS:

- Less manipulation to manoeuvre the tool back to its original opposition
- Lower risk of error such as deep penetration into loading material
- Faster loading
- Reduced parts wear

ADDED EXTRAS:

All STOLL – RTL component parts fit in the front loader.
Operated with standard STOLL lever control. No additional control unit required.

PETRONAS LUBRICANTS PRESENTS AKCELA® HY-TRAN® ULTRACTION™ THE NEW TRANSMISSION FLUID

Multifunctional lubricant with a unique formulation specifically developed for transmissions, hydraulic systems and wet brakes of Case IH machines.

What makes **AKCELA® HY-TRAN® ULTRACTION™** unique is that it uses a special additive package produced exclusively for its formulation and which cannot be reproduced in other lubricants. For all these reasons **AKCELA® HY-TRAN® ULTRACTION™** has been officially approved by CNH, obtaining the **MAT 3540** specification.

AKCELA, A RANGE OF ORIGINAL LUBRICANTS, IS DISTRIBUTED ONLY THROUGH THE OFFICIAL CASE IH NETWORK.

TOP MARKS FOR AKCELA

AKCELA® HY-TRAN® ULTRACTION™ benefits include:

- High viscosity stability at all working temperatures, oxidation stability, and shear stability, even in severe working conditions
- Thanks to its zinc-free formulation, it provides excellent water tolerance in the hydraulic and transmission circuit, including wet brakes, which could otherwise compromise full efficiency
- High fluidity at low outside temperatures, which optimizes the hydraulic and transmission system response during warm-up, thereby offering higher efficiency from the outset. In particular, it facilitates clutch control during cold starts
- This lubricant also boasts improved:
 - protection against wear and corrosion of the transmission components, improving their durability
 - air release capacity, for optimal functioning of the hydraulic systems and pumps

MAX SERVICE THE PREMIUM SERVICE FOR PRIORITY ASSISTANCE

Your work can't wait, and to help you meet your goals, Case IH is committed to giving you best quality after-sales service through its dealer network.

For an answer to your requests 24 hours a days and 7 days a week, there's just one thing to do – Ask Max. You will speak to a team of highly trained specialists, devoted to delivering you superior service quality.

WHAT MAX BRINGS GIVES YOU:

- Access to parts that you can't find elsewhere
- More assistance at the busiest times of the year
- Full details of your nearest Case IH point of contact

- 3 Simply pick up your order from your local dealership

Keep your productivity on track - Connect to caseih.com

FINANCE SOLUTIONS

PERFORM NOW, PAY LATER

Make the most of your Case IH machine today and take advantage of our financing offers to pay back gradually.

We are fully aware that you always need fast solutions to your maintenance and repairs issues, but the cash flow isn't necessarily in good supply at the same time. That's why all Case IH dealers offer their clients special interest-free financing deals for all purchases above €1,000 excluding tax.

You continue to receive all the benefits of Case IH parts and expert service and advice, and your bank account doesn't have to suffer.

MONEY PROBLEMS TAKE A BACK SEAT

- Finance available for all types of purchases: replacement parts, labour, maintenance, advanced farming solutions, etc.
- Choose your number of instalments: 12, 6, 4, or just one
- Pay up to 12 months after invoicing date

With CNH Capital, keep your operations running as you need and let the payments come later!

* Nominal rate of 0% (excluding optional insurance) for a one year instalment loan with the option of postponing annual payment date up to 12 months after invoice for a minimum financed sum of €1,000 ex. VAT. Duration of loan: 12 months. Total cost of credit: €30 (excluding optional insurance). Valid only on new Case IH parts, new Case IH precision farming products and labour for a minimum amount of €1,000 excl. VAT.

LOGISTICS

THE CASE IH ORGANISATION SERVING YOUR PRODUCTIVITY

Another guarantee of quality from Case IH: behind the scenes, a smooth, efficient logistical system is deployed to ensure your parts get to you fast, reducing machine downtime and therefore helping you work better.

You know you can count on the reliability of Case IH replacement parts and the expertise of your dealers, but we take our customer service one step further with our impressive pan-European distribution system.

Dealers benefit from an order tool enabling on-line ordering and delivering real-time automatic monitoring of stocks across Europe.

And with two main depots (in France and Italy) and three sub-depots (Germany, Spain and the UK), Case IH customers are guaranteed the delivery of their part to their dealer in an unbeatable 24 hours. No doubt about it – your favourite brand has the resources to deliver to your doorstep in double quick time!

CASE IH LOGISTICS

Efficiency and reactivity on a huge scale

- Warehousing covering 210,000 sqm
- Over 9 million order lines sent out every year
- 47,200 tonnes of goods shipped per year
- 1,200,000 product references managed – that's 5 times more than the auto industry and 3 times more than freight transporters.
- 700,000 products constantly held in stock
