NEW HOLLAND ROLL-BE

SUB COMPACT BOOMER 25C

25 HP | SMALL BUT MIGHTY

The Boomer 25C sub-compact tractor is the perfect small but mighty tractor for homeowners, hobby and lifestyle farmers who need a hardworking, versatile small tractor to handle the jobs other tractors can't. The economical, 25-horsepower Boomer 25C may be the smallest model in the Boomer line, but it's ready to take on your yard, farm, gardening and property maintenance jobs. Its compact size makes it easy to operate and manoeuvre around obstacles and in confined spaces.

- Ultra comfort, reversible high back seat and roomy, semi flat deck design.
- 2 range Hydrostatic Transmission with a 450KG 3 point Hitch lift capacity and foldable ROPS.
- Safely work after dark with a lighting package that includes halogen headlights, front mounted work lights, tail lights, turn signals and flashers.

PACKAGE 1 BODMER 25C FEL + 4 in1 \$26,310*

PACKAGE 2 BOOMER 25C FEL+4 in1+ Mid-mourt mover \$29,150 NCL. GST

PACKAGE 3 BODMER 25C FEL +4 in1 + Backhoe \$33,495*

* Optional to be purchased separately

BOOMER 35 LOADER + 4 IN1 BUCKET

38HP | 4 CYLINDER ENGINE

The Boomer[™] 35 compact tractors are the ultimate power tools for small horticulture and agriculture applications, homeowners, rural lifestylers, landscapers, golf courses, municipalities and hobby farmers.

- 4-cylinder diesel engine with hydrostatic steering and 820kg three-point lift capacity.
- 33L fuel tank capacity and 3 range Hydrostatic Transmission or optional 12x12 mechanical transmission.

WORKMASTER 40

38HP | 3 CYLINDER ENGINE

Workmaster[™] 40 is a value compact tractor which combines top performance with top value. They're built tough, are easy to operate to give you years of dependable, trouble-free performance.

- The rugged, 3-cylinder, diesel engine uses a cast-iron block and heavy-duty internal components.
- Reliable horsepower and excellent fuel efficiency with a 3 range Hydrostatic Transmission or optional 12x12 mechanical transmission.
- A well-padded, contoured, flip-up seat glides on a track to operate comfortably.

TT4.75 LOADER + 4IN1 BUCKET

75HP | PRODUCTIVITY BOOSTER

The spacious ROPS has a flat floor, wide pedal placement as well as New Holland's famous Lift-o-matic[™] rear linkage system, ensuring operator comfort.

LOADER FRIENDLY POWERSHUTTLE

• Both the TT4.65 and TT4.75 models are offered with an Optional Column mounted Hydraulic power shuttle, for front Loader applications or speedy headland Turns. The hydraulic power shuttle really boosts productivity.

TT3.50 LOADER+4IN1 BUCKET

50 HP | COMPACT & POWERFUL PERFORMANCE

The NEW TT3 tractor has been designed for Australian farms as its been designed with extensive feedback and input from farmers. Put simply, you could say the TT3 is a 'no-nonsense' machine for the budget conscious buyer. Characterised by smart design, rugged and robust construction, and efficient power, the TT3.50 delivers.

In order to meet the requirements of today's demands on a farm the TT3.50 delivers 50 horsepower, modern styling and unsurpassed performance in its class which makes it an ideal customer choice for value and versatility.

• Redesigned seat features include integrated suspension and extra cushioning for a smoother ride. The 'flip-up' armrests further enhances day-long comfort.

- The productive three-cylinder, 2.9 litre (S8000) FPT designed diesel engine packs a larger displacement and delivers greater power and efficiency thanks to it's large capacity fuel tank so you can work even longer before filling up.
- 2WD and 4WD options available with 8x8 Synchro shuttle mechanical transmission. A flip-up PTO Safety shroud and heavyduty swinging drawbar with clevis complement the three point linkage.
- Maintenance is easy with good under bonnet access, even with the class leading New Holland AP3O 4in1 Front End Loader installed and the aggressive 9.5-24" 4WD front tyres.

T4.75S LOADER + 4IN1 BUCKET AVAILABLE IN 55HP | 65HP | 75HP

New Holland T4.75S tractors deliver 75 horsepower and is the perfect balance between modern efficiency and the demands for a simple tractor that just does exactly what you need. Four-wheel drive deliver added traction for even greater versatility.

VISIBILITY

 T4S tractors are offered with a new generation four-post cab that delivers the best all round visibility and operator environment in this tractor class.

TRANSMISSION

- Hydraulic Power Shuttle available in 12x12 transmissions, a T4S offers the specification choice to suit farmyard, or field, hobby farm or hay and forage enterprises.
- Available in three power options the T4.55S, T4.65S and T4.75S.

TD5.100 LOADER + 4 IN1 BUCKET AVAILABLE IN 90HP | 100HP | 110HP

Look and feel good during long working days, that's why the TD5 range offers the ultimate combination of segment-leading operator comfort in a stunningly good looking tractor. Beauty or functionality? The TD5 has both.

DELIVERY DR SERVICE CHARGES MAY APPLY

DISTINCTIVE STYLING

• The trademark cat eye front lights, together with the sloping bonnet guarantee optimum forward visibility, and the rear work lights integrated into the redesigned roof ensure the family feel from every angle.

POWER OF CHOICE

- The entire TD5 range is powered by reliable mechanically fuel injected engines which offer super-easy maintenance.
- Available in three power options from 90hp, 100hp and 110hp.

T4.F/N/V SPECIALTY BLUE CAB 4 AVAILABLE IN 75HP - 110HP

New Holland, a leader in speciality tractor design, has enhanced its new four-model T4 F series to offer more power and performance, advanced cab filtration, more powerful hydraulics and a new front linkage and PTO package. Each model can be tailored to meet exacting specialist needs affordably and with proven dependability.

ADVANCED ELECTRONIC DRAFT CONTROL FOR OPTIMUM PERFORMANCE

- EDC allows the operator to precisely set up and control complement working depths, lift height and lowering speeds.
- Other features include a finger tip controlled fast raise and lower rocker switch.

VERSATILE LINKAGE WITH HIGH CAPACITY

- The rear linkage is adjustable to match Cat I or Cat II implements.
- All T4F models offer high lift capacities, up to 2600kg.
- Quick-attach couplings are standard as are remote linkage controls.

DELIVERY OR SERVICE CHARGES MAY APPLY

T5.100S ELECTRO COMMAND

AVAILABLE IN 90HP | 100HP | 110HP

The T5.S Electro Command[™] series with Semi Powershift transmission with 16 forward and 16 reverse gear options. This machine lifts the choices for farmers in today's demanding world. The T5.100S delivers more with 3800kg lift capacity with a tier 3 engine.

TRUE RELIABILITY

• With the powerful S8000 engine, the T5.S Electro Command[™] tractor series are ready to handle any challenging work.

REAL PERFORMANCE

- The high value Torque values, and turbo-intercooler with a 145L fuel tank provides uninterrupted operation over extended periods of time.
- Available in three power options the T5.S Electro Command[™] range offers high performance and economical use from 90hp, 100hp and 110hp.

S321*INC BER/WEEK BEPAYMENTS

T6050 T6020 | T6050 | T6070 AVAILABLE IN 112HP | 127HP | 141HP

The T6000 Series forms the backbone of New Holland's 110 to 150 horsepower segment. This tried-and-true model range is renowned with our customers for its quality, ergonomic cab design, reliability, and performance across a wide variety of farming applications, from front-end loader work, round baling and slashing to ploughing and seeding.

SPACIOUS CAB

T6050

\$151,650

• The Horizon Cab offers excellent visibility – with a total glass area of 5.87m2, C-Pillar hinged wide opening doors, and the Hi Visibility Roof Panel, you have an unobstructed view of the paddock. Cab suspension is also a standard feature.

T9 PLMI POWER & PERFORMANCE

AVAILABLE IN 467 - 699 HP

The NEW T9 series tractors give you the comfort you want and more of the power you need. High-capacity axles, advanced transmission control and ultra-efficient power engines are housed in a chassis size to match your business needs. If the extreme level of engine and hydraulic power doesn't turn your head, the sleek design and the largest cab in the industry certainly will.

Through PLM Intelligence[™]. New Holland is unlocking a new level of connectivity and remote viewing never seen in a 4-wheel-drive tractor. That's the inherent advantage of a new T9 Series tractor. In the T9 tractor, unmatched connectivity provides the ability to share information with your preferred providers, perform diagnostics remotely and make data-driven decisions related to your operations—all from any location and all designed to help you successfully manage your farm, fleet and data. You'll accomplish more in a single day, work smarter and more efficiently, and enjoy a superior level of control and management of your entire fleet.

FARM MANAGEMENT -GET MORE DONE EACH DAY

- Easily organise your fields, applications and agronomic data to gain better insights.
- View every field operation, from spring tillage all the way through harvest.
- Generate satellite maps to help visualise multiple layers of agronomic data to make more informed decisions.
- Push guidance lines, boundaries and prescriptions to equipment remotely.

FLEET MANAGEMENT WORK SMARTER BY TRACKING EQUIPMENT

- Achieve peak performance by maximizing uptime and efficiency.
- Receive notifications and view critical operating parameters.
- Monitor current and historical machine performance.
- Plan and execute maintenance on connected vehicles.
- · Coordinate your New Holland machines.
- Remote display viewing enables the farm manager or dealer to view—with the permission from the operator—what is on-screen in the cab of the tractor.

DATA MANAGEMENT CONNECT AND SECURELY SHARE YOUR FARM DATA

- Gain relevant agronomic insights that connect you to your farm down to the field level.
- MyPLM Connect helps you seamlessly manage, share and move data—all while ensuring you stay in complete control.
- Securely share your data and relevant equipment information with trusted partners.
- Invite your dealer to view relevant farm, field or field operation data for fast, transparent communication.

CR COMBINE ORIGINAL TWIN ROTOR AVAILABLE IN CR 7.90 | CR 8.90 | CR 9.90 | CR 10.90

New Holland revolutionised the way farmers harvested over 40 years ago with the introduction of ground-breaking Twin Rotor[™] technology for combines. Today's latest generation of CR combines continues the pure rotary bloodline and offers the world's farmers best-in-class grain and straw quality thanks to the gentle multipass action. The new, range topping CR10.90 is the most powerful and productive CR to date. The all-new Harvest Suite[™] Ultra cab has set a new benchmark in terms of harvesting ergonomics and comfort.

The CR Revelation's feeding system has been significantly upgraded to enhance its operation. The feeder features a four strand feeder chain with connecting slats on the CR8.90, CR9.90 and CR10.90 models for improved crop flow and smooth feeding. Material feeding into the Rotors is accelerated by the Dynamic Feed Roll (DFR) which also offers full stone protection and can be optioned with a cab-activated reversing mechanism should the need arise. The CR Revelation range is also fitted with high capacity lift cylinders equipped to handle the largest draper platforms available.

OUTSTANDING CAPACITY

• In 2014 the CR combine set a new world record harvesting 797.656 tonnes in 8 hours.

SUPERIOR HARVEST QUALITY

• Unsurpassed grain and straw quality is guaranteed courtesy of gentle, yet highly efficient Twin Rotor™ technology.

ABSOLUTE DRIVING PLEASURE

• The all-new Harvest Suite™ Ultra cab has been designed to deliver ultimate harvesting comfort and ergonomics.

BIGBALER HIGH DENSITY LARGE SQUARE BALER

AVAILABLE IN CROPCUTTER | PACKER

The BigBaler 1290 High Density features New Holland's next generation styling, characterised by sweeping yet aggressive lines, which convey the 'let's get it done' attitude. But it is not a case of style over function – wide opening side and front shields make for easy servicing access.

OUTSTANDING PICKUP VISIBILITY

• Thanks to the balers short and narrow drawbar and its non-reflective yellow

• colour, operators have excellent visibility of the pick-up when baling.

HIGH DENSITY PERFORMANCE

• The BigBaler 1290 High Density doesn't only produce up to 22% higher density bales, it also delivers higher productivity, even more so than the current BigBaler plus range. This is in part, thanks to the new five-bar pickup, which helps feed in crop at higher rates.

CENTRALISED CONTROL

 During long baling days, small things can make a big difference, so just imagine what a significant impact big things can have. The user interface on the IntelliView[™] IV colour touchscreen display has been completely redesigned to enable operators to control the main functions from the screen, including specific, direct-access 'action' buttons, which can be used to control features such as bale density, bale length and PTO engagement.

MINI EXCAVATORS

17HP - 60HP | 6 MODELS AVAILABLE

Big digging power in restricted areas and congested work sites with a C Series compact excavator. The dozer blade and auxiliary hydraulics are standard equipment to improve your bottom line.

ENGINE BUILT FOR EXCAVATION

 New Holland C Series compact tracked excavators with a quiet Tier 4 final engine. The E17C comes with 17hp and E26C comes with a 26hp engine built to excavate, grade and backfills with one machine and save fuel while doing it.

DIG WITH CONFIDENCE

SAE bucket breakout digging force with the E17C delivering 3,490 lbf and dig depth up to 7'3", while the E26C delivers 4,740 lbf and dig depth up to 7'11" This mini excavator ensures top-of-class ground clearance and excellent dozer blade lift height working in rough conditions.

SKID STEER

60HP | ROBUST AND STRONG

New Holland 300 Series skid steers are robust and strong. In addition to being reliable, all this with low fuel consumption, easy maintenance and reduced operational costs.

SUPER BOOM® BETTER STABILITY, HEIGHT AND DISCHARGE RANGE

As the loader arms go up, it moves the load forward, not back, toward the operator. Combined with a Larger Bucket Closure Angle; this provides better material retention and efficiency.

EXCELLENT WORK IN SEVERE CONDITIONS

Excels in restricted spaces with high performance and security. The longest wheelbase in the category, guarantees comfort and stability even on uneven terrain.

COMPACT TRACK LOADER C327

74HP | COMFORTABLE CAB

New Holland engineers used input from hundreds of customers to design our innovative line of compact track loaders.

BUILT AROUND YOU

Our industry leading bucket breakout force and dump angle provide fast cycle times and improve productivity.

OPERATING ENVIRONMENT

The Compact Track Loader has one of the widest, most comfortable cabs in the industry, giving you more head and foot room, and offering twice the visibility in critical zones.

SUPERIOR FEATURES

Keyless start, a Glide Ride option, available heated or air-ride seat and a self-leveling bucket feature.

WPGRADE YOUR TEECH

Tackle farming applications for every season and across all equipment brands with the XCN-1050TM display system, NAV-900TM guidance controller and EZ-Pilot® steering solution.

> **BUNDLE** PRICE **\$7,500** EXCL. GST

BUNDLE CONTENTS: XCN-1050™ DISPLAY I NAV-900™ GUIDANCE CONTROLLER EZ-PILOT® ASSISTED STEERING SYSTEM KIT I HARNESS

BOOST YOUR PRODUCTIVITY AND ENHANCE YOUR OPERATOR COMFORT WITH THE XCN-1050™ DISPLAY SYSTEM AND ASSISTED STEERING BUNDLE.

XCN-1050™ DISPLAY

From the XCN family of consoles, the XCN-1050[™] features a multi-touch surface for convenient fingertip control, and an Android operating system. The XCN-1050[™] is a display that allows you to get more done, with greater precision, at lower cost.

NAV-900[™] GUIDANCE CONTROLLER:

900

Featuring a powerful GNSS engine combined with its industryleading Autopilot[™] Guidance Controller in a single, roof-mounted enclosure. The multi-constellation GNSS receiver uses multiple frequencies of satellite signals to provide faster convergence times and more robust performance.

EZ-PILOT® ASSISTED STEERING SYSTEM:

Stay on course with the high-accuracy, easy to use, EZ-Pilot[®] assisted steering system. When your machine is in motion the EZ-Pilot[®] assisted steering system turns the steering wheel for you, courtesy of a fully integrated control module using GPS guidance from the XCN-1050[™] display.

THE OPTIMAL MECHANICAL PROTECTION PLAN FOR YOUR HARD-WORKING EQUIPMENT.

OPTICOVER EXTENDED WARRANTY

With ever-increasing productivity expectations, the demands on agricultural equipment has never been greater. No one understands this better than New Holland Agriculture.

Which is why we've designed OptiCover – an extended warranty engineered for the hardest-working agricultural machines. With flexible options, OptiCover is an enhanced protection plan that goes beyond the standard product warranty to offer optimal peace of mind should the unexpected occur.

You can purchase OptiCover within 30 days from the date of delivery of your new equipment.

Scan here to access the full OptiCover brochure.
