Optional

Note: Since product information is a continuous process, specifications and details may change without any prior information. Description given above

MULTI-UTILITY HEAVY DRIVE AXLE - 4WD MHD

- Increased productivity by 15-20% in field applications where more pull is required.
- Better stability during haulage operation.

PARTIAL SYNCHROMESH GEARBOX

- Smooth and Noise free shifting at high speeds.
- Double-Declutching not required

BEST OPTIMIZED 12+3 UG GEAR SPEEDS

- Best suited application speeds in industry
- Almost 3 speeds for every work.

HIGHEST LIFT CAPACITY (Kg)

- 2000 Kg Lift capacity with help of Assist RAM allows easy lifting of heavy implements like Pneumatic Planter, Potato Planter, Trolley etc.

REVERSE PTO WITH INDEPENDENT PTO CLUTCH

- REVERSE PTO : Used in applications like straw reaper, rotavator, TOT, mud mixer, where reverse movement of PTO is required to unchoke/unclog straw, mud.
- No usage of main clutch during PTO operation, helps to increase clutch life.

SENSOMATIC²⁴ HYDRAULICS

- 24 sensing points makes it Best in class hydraulics in industry which performs in all types of soil condition.
- LIFT-O-MATIC WITH HEIGHT LIMITER: Uniform depth in the fields gives more Yield/Acre.

DOUBLE METAL FACE SEALING* - PADDY SPECIAL

- Upto 3 times longer life with zero maintenance.
- Trouble free operation in deep puddling.

HIGH FLOW HYDRAULIC PUMP (l/min)

- Fast hydraulic response in applications like laser leveller, hydraulic operated trailer etc.
