\*Images are for reference only and may depict features or components not standard on New Zealand models. Finance is available through CNH Industrial Capital or UDC to approved purchasers only. All offers are based on minimum 50% deposit with GST repaid in 3rd month. Balance is payable by EITHER 36 equal monthly principal and interest repayments at 0.5% per annum interest OR in one interest free (0.00%) lump sum payment 12 months from the date of purchase. Offers only apply to the New Holland models depicted. Credit criteria, fees, terms and conditions apply. Some exclusions may apply. Offers are valid to 31 October 2021, or until stocks last.

## DISCUTTER RANGE

The 6-model rear mounted pendulum suspended DiscCutter™ mower range is available in 3.2, 3.6, 3.9 and 8.6 metre cutting widths along with mower conditioner options on the 3.2 and 8.6 metre models. Operators can choose the perfect mower, whether working in narrow, irregular shaped fields, or large open spaces.

- Low profile cutter bar
- Quick change knives
- Vari-Float suspension system
- Flexible transport – your choice between vertical fold or horizontal inline positions

50/50 FINANCE DEALS  
FROM ONLY

**\$345** +GST

## PROTED TEDDERS

The ProTed™ range of tedders is available in both mounted and trailed specifications. The three mounted models feature working widths of 5.4, 6.9 and 8.8 metres, and for those looking to optimise the horsepower/width ratio, a trailed tedder is also available in the largest 8.8 metre width.

- Double tines for enhanced tedding performance with tine lock
- Pivot closed rotors to ensure efficient ground changing adoptions
- Easy rotor adjustment

50/50 FINANCE DEALS  
FROM ONLY

**\$183** +GST  
PER MONTH

## PROROTOR RAKES

ProRotor™ double rotor rakes ensure central crop delivery. Benefitting from high ground clearance, this range is ideal when working with large swaths of dense crop. Available on the 760 and 820 the cardanic rotor suspension technology means that the rotors can move both laterally and fore-aft freely for efficient operation.

- Available in either 7.6m or 8.2m working widths
- Maintenance free rotor arms
- Soft handling of crop
- Cardanic rotor suspension

## ROLL-BELT CROPCUTTER BALERS

New Holland has led the Roll-Belt baler segment for over 25 years, and has introduced a string of pioneering firsts that have revolutionised the way variable chamber balers operate today. The latest generation is set to redefine round baling with advanced Roll-Belt technology that can improve capacity by up to 20% and density by up to 5%.

Operators can select between a 150cm or 180cm maximum bale size to suit their individual needs.

- 2 models available RB150 and RB180
- 2.3m pick-up
- CropCutter rotor with up to 15 knives
- Drop floor
- In cab density control

**50/50 FINANCE DEALS  
FROM ONLY**

**\$1,077<sup>+GST</sup>**  
PER MONTH

## BC5000 BALERS

The BC5060 has a 1.8m Super Sweep™ pick-up allowing swift travel along small lanes, smooth passing through narrow gates and compact storage in confined spaces. The wider 2m Super Sweep™ pick-up on the BC5070 and the extra feeder rotor provide the high capacity and daily output required on larger farms and contracting

operations.

- 1.8 or 2m pick-up
- Hydraulic pick-up lift
- 6 tine bar pick-up
- Proven knotter system

**50/50 FINANCE DEALS  
FROM ONLY**

**\$518<sup>+GST</sup>**  
PER MONTH

## RB125C COMBI BALER

The new fixed chamber Roll Baler 125 Combi model offers livestock farm and contract operators the best choice in fixed chamber baling.

Easily distinguished by new styling, the RB125 Combi will be the first choice for those looking at a baler suited to working heavy crops in demanding conditions.

- 2.3m pick-up
- Drop floor
- Auto knife retraction
- ISOBUS connectivity

**50/50 FINANCE DEALS  
FROM ONLY**

**\$2,008<sup>+GST</sup>**  
PER MONTH
