

COMBINES

GENUINE PARTS, ACCESSORIES & SERVICE

CR9000 SERIES COMBINES: FROM THE WORLD'S FIRST ROTARY COMBINE TO THE WORLD'S LARGEST COMBINE

Our customers never rest, and neither do we. New Holland revolutionized harvesting with the world's first rotary combine in 1975. Today, we're proud to introduce the world's largest combine. The CR9090 joins the Twin Rotor series to provide the record-breaking performance that today's producers need to feed a growing world.

An impressive match of power and performance, the CR9090 features a New Holland Cursor 13 liter Turbo Compound engine (TCD), the largest ever installed on a combine. Its smart design delivers 591 horsepower, while Turbo Compound technology improves fuel efficiency by 5 percent compared to conventional turbocharged engines.

Boasting the world's largest threshing capacity, largest cleaning area and largest cab, the CR9090 is the current Guinness World Record holder for the most grain harvested in an 8-hour period.

The CR9000 Twin Rotor® series has been recognized with awards honoring its contribution to farming innovation. The American Society of Agricultural and Biological Engineers (ASABE) presented the CR9090 with a prestigious AE50 Award for the most innovative product ideas to enter the market in 2008. In 2009, the CR9080 won a prestigious FinOvation Award for new products and technology for the farm.

YOU'VE GOT THE POWER

Your New Holland Combine is tough, reliable and engineered to perform. So when it comes time to purchase attachments, accessories, parts and service, turn to your New Holland dealer for genuine OEM parts and certified service support.

THE CHOICE IS CLEAR

Some aftermarket companies cut corners on materials, quality and strength that can cost you in the long run. The fact is, New Holland engineered and assembled your equipment. We know what each and every part's tolerance, function and service requirement is. And, we've built each part to exceed those specifications.

So don't settle for second best. Rely on New Holland parts for the best in quality, reliability, durability and performance. We offer a complete line of Genuine New Holland Parts, accessories and attachments to handle any job that comes your way.

THE TOP 10 SMART REASONS

The top 10 SMART REASONS to partner with your New Holland Agriculture dealer

1 WE DESIGNED & BUILT THESE MACHINES.

Who would understand your machine better than us? Only your New Holland dealer can provide you with genuine New Holland parts specifically designed for your equipment to protect your investment and maintain uptime.

2 INDUSTRY-LEADING PARTS DISTRIBUTION.

You don't have time to wait on a part. Our 10 parts depots are strategically located to maximize parts availability, accelerate delivery times and minimize downtime.

3 INDUSTRY-LEADING WARRANTY.

Need parts? Need labor? We cover both. When your new or remanufactured parts are installed at a New Holland dealership, you'll be protected by our industry-leading coverage for both parts and labor.

4 QUALIFIED TECHNICIANS.

As our equipment advances, so do our qualified technicians. Our technicians are trained on advancements in repair, maintenance and technology specific to New Holland equipment.

5 LOWER OWNING & OPERATING COSTS.

In addition to genuine New Holland parts, we offer a full range of cost-effective alternatives. CNH REMAN and Gold Value All-Makes parts support your operation and give you the best cost of ownership.

6 CERTIFIED MACHINE INSPECTIONS.

Get peace of mind through preventative maintenance. In the off-season, our trained and experienced technicians provide you with recommendations on how to maintain your machine's peak performance.

7 OUR ELECTRONIC SERVICE TOOL.

Available exclusively to New Holland dealers, our service tool and proprietary software quickly diagnose machine performance issues in an effort to keep you up and running.

8 LATEST UPDATES.

Only your New Holland dealer has direct access to the latest New Holland operational, service and repair information, ensuring that you get regular updates on your equipment the moment it's available.

9 CUSTOMIZED FINANCIAL SOLUTIONS.

At New Holland, we understand agriculture and the needs of all types of producers. You can count on CNH Capital season after season, in good times and tough times. We'll work with you to help acquire the equipment, parts and service you need.

10 PRECISION FARMING EXPERTS.

New Holland Precision Land Management (PLM)-trained dealers offer dedicated support to maximize your productivity and profitability. Our team of PLM experts will work alongside you in the field when you need them most.

PEACE OF MIND.

All this equals market-leading aftermarket support that delivers the best solution for your operation.

DEALER SUPPORT

NEW HOLLAND SMART SERVICE PLANS

When the unexpected occurs, you need to know that your equipment is protected. The New Holland Protection Plan is a purchased service contract designed to help keep your equipment working properly beyond the Manufacturer's Base Warranty Period. Select the plan option that best meets your needs.

EQUIPMENT PLAN OPTIONS

- Powertrain
- Powertrain Plus Hydraulics
- Premier

New equipment plans are available for protection periods of up to 60 total months or 7,500 total machine hours, whichever occurs first. The protection period you select includes the Manufacturer's Base Warranty Period.

Most equipment that is within the Manufacturer's Base Warranty Period, or up to 120 days beyond the expiration of the Manufacturer's Base Warranty Period, may be eligible for a new equipment plan.

ADVANTAGES OF THE NEW HOLLAND PROTECTION PLAN

PEACE OF MIND

Provides protection beyond the Manufacturer's Base Warranty Period.

FLEXIBLE OPTIONS

Plans can be customized to meet individual needs.

FINANCING AVAILABLE

Plans may be financed on CNH Capital America LLC. CNH Capital retail installment contracts, lease agreements or commercial revolving accounts.

DEPENDABLE SERVICE

Eligible repairs completed by authorized service technicians using Genuine New Holland Parts.

TRANSFERABLE PROTECTION

New Equipment Plans may be transferred to a new owner at no charge.

PRODUCTS DESIGNED TO MEET YOUR NEEDS

We understand the equipment business. That's why we offer these additional products to help keep your operation running smoothly:

PHYSICAL DAMAGE INSURANCE

Provides coverage to repair or replace insured equipment in the event of direct physical loss or damage.

LOSS DAMAGE WAIVER

Helps protect rented equipment against most causes of direct physical loss or damage.

CREDIT LIFE INSURANCE

Provides life insurance coverage to help pay off the balance due on equipment financed with CNH Capital in the event of the insured's death.

DEALER SUPPORT

NEW HOLLAND FACTORY-TRAINED TECHNICIANS KEEP YOU WORKING

Our New Holland dealer technicians are factory-trained in the latest service and diagnostic techniques specifically for your New Holland combine. Because of this skill, they can provide an important added dimension to maintenance—the ability to spot signs of trouble early and then fix them before they can become costly problems.

PLANNED MAINTENANCE AGREEMENTS

A Planned Maintenance (PM) Agreement is an arrangement between you and your dealer for future services at a predetermined price. PM Agreements can be tailored to meet your specific needs.

Not only does a PM Agreement help you budget maintenance costs, you no longer have to think about the stress of on-time, proper machine maintenance. Instead, hand it over to your dealership's technicians, who have the proper New Holland training, tools, and experience to keep equipment performing at its best. Focus on what you do best, managing your core business.

Our planned maintenance and inspection services offer you these advantages:

- Budgeted maintenance costs
- Identification of problems and repair before failure
- Increased productivity
- Less costly downtime
- Documented maintenance
- Increased resale value
- Lowered owning and operating costs
- Service by New Holland trained technicians
- Improved fuel economy
- Use of Genuine New Holland lubricants, filters and parts

CERTIFIED MAINTENANCE INSPECTION PROGRAMS

When you schedule your equipment for annual maintenance inspection services, your dealership keeps account of each inspection and service, distinguishing your commitment to keeping your New Holland combine in top running condition. Not only does this keep you productive in the field, but it can also increase the resale value of your New Holland combine.

GET THE NEW HOLLAND SERVICE SOLUTION

See your dealer for more information on the New Holland Certified Maintenance Inspections, and PM Agreements. Trust your New Holland dealer to keep your New Holland combine operating in top condition.

MAINTENANCE

1

MASTERGOLD ENGINE OIL

One engine oil for all your machines.

- Improves operating performance and cold-weather starting
- Thoroughly protects moving parts against wear and corrosion for longer engine life
- Meets requirements for the latest API Service Classification, CJ-4, and is compatible with new, legacy and all brands of equipment

2

MASTERTRAN™ ULTRACTION™

One hydraulic/transmission oil for all your machines.

- Multiviscosity fluid that consistently transmits power across extreme operating temperatures
- Greater shear tolerance improves performance under severely high pressures and loads
- Superior protection against corrosion and gear surface pitting in new, legacy and all brands of equipment

3

GR-9 GREASE

GR-9 is a general-purpose NLGI 2, lithium-soap, extreme-pressure grease. It's designed for use in anti-friction and plain bearings (including non-disc brake wheel bearings), universal joints, spline shafts, water pumps and general chassis lubrication.

4

SYSTEMGARD LUBRICANT AND FLUID ANALYSIS

Systemgard analysis is a snapshot of what is happening inside your equipment. It tells you the condition of the lubricant and identifies component wear and contamination in engine, transmission and hydraulic systems. Systemgard can help identify small concerns before they become bigger, downtime-causing problems.

5

FLUSH-FACE QUICK COUPLINGS

Eliminate hydraulic coupler fluid leakage by updating your equipment with new flush-face couplings that resist the effects of surface nicks and scratches.

- Simple one-hand hookup
- Heavy-duty, induction-hardened surface for long life
- 3000 PSI rating
- Heavy-duty sleeve lock

6

BELTS

Don't take chances with your engine belts. A broken belt can leave you stranded. Replace those old, frayed or cracked belts today. It's also a good idea to always carry spare belts.

7

NEW HOLLAND AIR FILTERS

Better filters, longer life. New Holland filters offer extended change intervals to save you time and money. New Holland filters offer increased dirt-holding capacity and the ability to remove even smaller particles.

8

TIRE SEALANT

New Holland Tire Sealants offer a simple, direct, cost-effective way to help save money, avoid downtime, and increase profits. Whether installing new equipment, or during pre-season or post-season service maintenance programs, New Holland Tire Sealants will seal hundreds of punctures up to 3/16" as they occur, and work to maintain constant recommended air pressure for the life of the tire.

Service Maintenance Contracts for all models are available from your New Holland dealer.

MAINTENANCE

1 OIL FILTERS

New Holland filters help keep your oil and powertrain running cleaner. New Holland filters remove an even higher level of the finest contaminant particles that can cause the most potential for engine wear. The latest generation of synthetic media construction provides the ultimate in durability, filtration efficiency and dirt-holding capacity. Its multi-layer graded density media produces great moisture tolerance, strength and consistency. Up to 75% less restriction during cold weather conditions compared to other brands allows engine oil to reach critical components much quicker than with standard engine oil filters.

2 IRON-GARD™ PAINT

Protect your investment and add value by preventing problems before they develop with New Holland paint. The durable finish stands up to extreme weather conditions and exposure to the elements. New Holland paint meets your demanding requirements and offers a bucket load of advantages.

3 FUEL CONDITIONERS

New Holland Diesel Fuel Conditioner and Anti-gel are specially blended additives that are designed to extend the longevity of your engine's fuel system and prevent fuel problems related to cold temperatures, bacterial growth, fuel oxidation and system corrosion.

DIESEL EXHAUST FLUID (DEF)

The DEF available through your New Holland dealer is a stable and colorless solution. It meets ISO Standards for purity and composition and is an American Petroleum Institute (API)-certified diesel exhaust fluid. These are the highest quality and safety standards in place to ensure optimum SCR system performance. Your New Holland dealer also offers a complete line of DEF transfer pumps and meters, including on-farm bulk storage equipment options.

4 DEF Transfer Pump

5 2.5-Gallon Box

6 275-Gallon Tote

Service Maintenance Contracts for all models are available from your New Holland dealer.

CAB ACCESSORIES

1

1 WINDSHIELD WASHER KIT

Kit includes pump, reservoir, hoses, harness and mounting brackets.

2

CAB RECONDITION KIT

Recondition your combine cab to “like new” appearance and performance. Install a New Holland cab kit and get most items needed—door and pedal seals, door edging, pedal pads, an insulator pad and a floor mat.

2

3

FIRE EXTINGUISHER KIT

Kit includes extinguisher, sticker and mounting bracket and hardware. Available with a 10 or 20 lb. capacity extinguisher.

3

Service Maintenance Contracts for all models are available from your New Holland dealer.

See your local New Holland dealer for more information on accessories.

CAB ACCESSORIES

1

2

3

JENSEN HEAVY-DUTY RADIOS

Heavy-duty means "Built to Last" in the toughest environments. Tested for extreme temperatures, humidity and vibration.

- 2 wire hook-up prevents battery drain
- Low battery alarm & shut-off
- Three in-dash models available

MODELS :

1

ZAEJHD3630BTHD Heavy-Duty

- AM/FM
- CD/USB/WB
- Bluetooth®
- iPhone®, iPod®, SiriusXM® Satellite Ready
- MP3/WMA compatible

2

ZAEJHD1630HD Heavy-Duty

- Same features as ZAEJHD3630BTHD with the exception of a CD player and Bluetooth.

3

ZAEJHD1130HD Heavy-Duty

- CD/USB/WB

Other Radios and Accessories Include:

Headphones, 2-way speaker sets, antennas, satellite radios and tuners, iPod cables and wireless remotes.

4

OBSERVATION SYSTEMS

The Voyager Observation products offer everything you could want in a durable, well-built observation system. Stop straining your neck and back. See where you could never see before and work in comfort, not pain!

- 1 and 2-camera systems, 3rd camera available
- Cameras are wide-angle, zero-lux & waterproof
- 1-year warranty on medium-duty
- 2-year warranty on heavy-duty products

5

SEATS

New Holland offers a full line of heavy-duty seats designed and tested to withstand the toughest conditions. From air-ride to mechanical suspension, these seats have operator comfort and features built-in for those long hours on the job.

See your local New Holland dealer for more information on accessories.

COMBINE KITS

1 PLATFORM EXTENSION KIT

2 UNLOADING AUGER EXTENSION KIT

New Holland's unloading auger kits offer a further reach, allowing safer unloading onto your grain cart. The New Holland kit comes complete with a chain, sprockets, a gearbox, lower support, a vertical auger and attaching hardware.

3 STRAW CHOPPER SLOW-DOWN KIT

A Straw Chopper Slow-Down Kit allows processing of corn residue through your straw chopper. Includes the belt pulley, shield, belt and all hardware.

4 CLEANING KITS

The Deluxe Shaker Cleaning Kit includes bushings, housing and all the hardware.

5 SIEVE KITS

New Holland offers a wide selection of sieve kits for your New Holland combine. Kits come ready to install and include sieves with installed rubber flaps, seals, a wire harness, and a grain-loss sensor with brackets.

See your local New Holland dealer for more information on accessories.

ROTORS AND RASP BARS

1 PLATE AND LUG KITS

Upgrading your rotor components improve life and reliability. Plate and lug kits are available individually and for one, or both, rotors. Includes the plates, lugs, and all mounting hardware.

2 ROTOR ASSEMBLIES

These complete rotor assemblies come ready to install. They are factory-assembled and balanced for smooth operation.

3 NEW HOLLAND CONCAVE KITS

The New Holland concaves' one-piece design eliminates the extension, improving reliability and saves time with installation. Available in large wire and small wire configurations. The kit includes concave #1, #2 and #3. Extended-wear concaves have heat-treated crossbars.

4 NEW HOLLAND RASP BAR KITS

Install a New Holland rasp bar kit and get original equipment quality plus all new hardware for easy installation. New Holland rasp bars are constructed from long-wearing nodular iron and then quenched, and tempered to a specific hardness.

See your local New Holland dealer for more information on accessories.

CORNHEAD ACCESSORIES

3

1

STALK STOMPER KITS

Stalk stompers level corn stalks ahead of the combine drive wheels. This helps with tire wear and extends tire life. The Kit includes a pair of stalk stompers and attaching hardware.

2

CORN HEAD KNIFE REPLACEMENT KIT

New Holland Knife Blades are coated on the cutting side with long-wearing tungsten carbide and then are heat-treated, making them extremely sharp and durable. Because of this, these knives are also self-sharpening.

3

AUGER DRIVE KIT

Auger speed is reduced 25-30% to lessen the amount of energy applied to ear conveying. Reducing auger speed results in fewer ears tossed forward over the auger, thus reducing ear loss, shatter loss, and reprocessing loss. Slower auger speed also provides the feeder a better chance of removing the ears from the auger.

4

HOODS AND DIVIDERS

New Holland row unit hoods and dividers are interchangeable with the current steel assemblies and have replaceable, heavy-duty cast wear points. The crowned hood reduces crop bunching and the ear saver kits help reduce ear loss.

4

See your local New Holland dealer for more information on accessories.

GRAIN PLATFORM

1 CUTTER BAR REBUILD KITS

New Holland Cutter Bar Kits are available with and without knives so you can select the knife that best fits your needs. Kits include guards, hold-down clips, wear plates and hardware.

2 BULK TINES AND KITS

New Holland has a full line of replacement tines for your combine. Available individually or in bulk packs and tine service kits.

3 CROP DIVIDER KITS

New Holland crop dividers are designed to separate tall and tangled crop for maximum cutting efficiency. Includes components for both left-hand and right-hand dividers.

4 POLY-SKID SHOE KITS

Poly-Skid Shoes improve header performance in wet, sticky soils and extend metal shoe life in sandy, abrasive soils. The design of the new black poly-skid shoe material is changed to permit the shoe to nest into the ribs of the steel skid shoe. This allows the operator to cut grain at a lower height.

See your local New Holland dealer for more information on accessories.

LIGHTING & ELECTRICAL

1

1 HID LIGHT KIT

Includes: HID lamp assembly (2), wire harness (2), ballast (2), hardware and installation instructions

2 WARNING LIGHTS

- Lightbars, beacons and minibars
- Halogen and LED lights
- Many options available in regards to light source, size, shape, electrical connection, kits and price point

3 WORKLAMPS

- Halogen, HID and LED
- Flood, spot and trap configurations available
- Rugged solid state lights can withstand off-road shock and vibration

2

4 JUMP STARTERS

Don't get stuck on the job without juice. Use a Quick Cable Booster. These jump packs will save the day.

5 NEW HOLLAND SMART-START PREMIUM HEAVY-DUTY BATTERIES

Vibration is the biggest killer of off-road batteries. New Holland Smart-Start Premium Heavy-Duty batteries are built to take the pounding that is created when your machine bounces across a field or jobsite. New Holland batteries contain larger and heavier lead connections than typical off-the-shelf batteries and utilize a unique, epoxy-bonding design to secure the internal grids in order to prevent shorts caused by excessive vibration and shocks.

3

4

5

6

6 BATTERY CHARGERS

Keep your battery in peak condition in your off-time.

- 10/30 amps
- 200 amp start
- Fast-charge and trickle-charge

All electrical equipment should be installed by an authorized New Holland dealer.

PRECISION LAND MANAGEMENT (PLM™)

1 EZ-GUIDE® 250 LIGHTBAR

The EZ-Guide 250 lightbar steering system has an intuitive user interface that works right out of the box. Easy to install with its own built-in receiver, the EZ-Guide® 250 system can be a logical first step into the world of guidance systems and can be retrofitted to most equipment brands.

- Rugged construction for everyday field use
- Compact 4.3" color screen
- Intuitive user-interface
- 15 built-in LED lights
- Built-in receiver
- Quick installation and fast learning curve

2 FM-750 TOUCHSCREEN DISPLAY

The FM-750 touchscreen display delivers affordable guidance, steering and precision agriculture functionality. Use the FM-750 display to maximize your efficiency when planting, spraying, spreading and strip tilling by adding the Field-IQ crop input control system OR upgrading to GLONASS satellite correction.

- Rugged construction for everyday field use
- Mid-sized 8.0" color touchscreen
- Intuitive user-interface
- 27 built-in LED lights
- One built-in, dual-frequency receiver
- GLONASS-ready

See your local New Holland dealer for more information on precision farming equipment.

1

2

3

6

4

5

3

FM-1000 TOUCHSCREEN DISPLAY

The FM-1000 touchscreen display is designed to deliver the best performance and reliability with dual-integrated GPS+GLONASS receivers. Capable of delivering everything you need in guidance, steering and precision farming features, the FM-1000 gives you a choice of accuracy levels between 8-in (20 cm) and 1-in (2.5 cm) pass-to-pass and year-to-year.

- Rugged construction for everyday field use
- Large, 12.1" color touchscreen
- Intuitive user-interface
- On-screen guidance LEDs
- Two built-in receivers
- GLONASS-ready

5

INTELLIVIEW™ IV

The Intelliview™ IV display can be used throughout a farming operation and is compatible as a factory option for your New Holland combine. The Intelliview™ IV will communicate with the IntelliSteer system, as well as the vehicle's CAN Bus, and display machine function information in real-time on just one screen. Maximum operator comfort is provided on a 10.4" touch-screen display. See where you are and choose information you want to view, monitor and control. The Intelliview IV also gives you a choice of accuracy levels between 8-in (20 cm) and 1-in (2.5 cm) pass-to-pass and year-to-year.

6

NH 372 RECEIVER

The NH 372 GNSS receiver is an all-in-one dual-frequency GPS/GLONASS antenna and receiver system. The NH 372 GNSS receiver ensures a highly-accurate, reliable signal that is always available so you can keep moving. Signal loss won't shut you down or force you to move forward without mapping and guidance.

4

PLM CONNECT

PLM™ Connect allows customers to manage their fleets remotely and receive real-time machine information, increasing productivity, reducing operating cost and minimizing equipment downtime.

FACTORY SPECIFICATIONS BUILT TO LAST

Maintain the performance and power of your New Holland combines with New Holland Genuine Parts. New Holland Genuine Parts are the only parts designed and engineered exclusively for your combine. New Holland Genuine Parts and accessories are created, tested and designed to fit, perform and wear specifically for your combine.

In fact, New Holland Genuine Parts are the same parts used in the original production of all New Holland combines. New Holland Genuine Parts' advantages include the highest-level materials, exact fit, correct colors and finish. New Holland Genuine Parts warranties cover the part and the cost of labor when installed by an authorized New Holland dealer. With New Holland Genuine Parts, you always get parts and service you can depend on.

OIL PUMPS

ELECTRONICS

INJECTION PUMPS

See your local New Holland dealer for more information on New Holland Genuine Parts for your combine.

New Holland Genuine Parts Warranty includes labor if the part is installed by an authorized New Holland dealer.

NEW HOLLAND REMANUFACTURED PARTS

STARTERS AND ALTERNATORS

Today, there are more reasons than ever to choose New Holland remanufactured parts for your equipment. From more product offerings, to less downtime during installation, you're sure to appreciate the unique benefits of choosing reman. If you're new to New Holland remanufactured parts, here are some great reasons to make our parts a key element in your ongoing equipment maintenance program.

SIGNIFICANT SAVINGS

New Holland remanufactured parts cost less than new parts — offering a great value, while ensuring peak performance.

MORE CHOICES

Every day, we look to add even more parts to our already extensive reman roster. This expanded offering gives you more options for your equipment needs.

WATER PUMPS

HIGHER VALUE

It's a fact. When you install our parts in your equipment, you can expect increased resale value.

OEM PERFORMANCE

Unlike "will-fit" parts, each New Holland remanufactured part is engineered to deliver like-new performance that meets stringent New Holland performance specs.

PROMPT CREDIT FOR YOUR CORE

Your existing core has value. Your local dealer is equipped to provide a prompt, thorough analysis of your core (core values vary with condition).

QUALITY

New Holland remanufactured parts are completely disassembled. All parts are thoroughly inspected and reassembled to the latest OEM specifications.

ENGINES

LESS DOWNTIME WITH INSTALLATION OPTIONS

Because many New Holland remanufactured parts are ready to install, our technicians can spend less time completing repairs or shop installs. The result? Quicker turnaround and a whole new level of equipment uptime for you.

SUPERIOR WARRANTY PROTECTION

Unlike no-name competitors or rebuilds, our parts are fully warranted — just like those bought new. New Holland remanufactured parts provide same as new, and sometimes better than new warranty coverage.

See your local New Holland dealer for more information on New Holland remanufactured parts.

NEW HOLLAND-BRANDED MERCHANDISE

MODELS AND REPLICAS

New Holland replicas are perfect for enthusiasts and collectors - from keepsake heritage collectibles, to the always-popular scale models of current machines. Stop by your local dealership to see New Holland's full assortment today.

See your local New Holland dealer for more New Holland-branded replicas, tools and equipment.

TOOLS

Show off your New Holland pride with New Holland-branded hand tools. New Holland tools have been engineered, sourced and priced to provide the best value for all levels of tool users and carry a lifetime replacement warranty*. These quality tools will provide great service and pride of ownership for years to come.

*Excludes air tools and torque wrenches

POWER EQUIPMENT

Want to add more power to your power equipment? Our line of New Holland power equipment is just what you need to get the job done right. New Holland offers a full line-up of pressure washers, water pumps, generators and air compressors. When it comes to standing up to mother nature, no one has you covered better than New Holland. Purchase your New Holland power equipment today and be ready for whatever mother nature dishes out.
