BUILDING THE FUTURE STARTS WITH THE RIGHT TOOLS

Having the right tool is the key to efficiency, productivity and profitability. That's why construction contractors, municipalities, grounds maintenance departments, roads crews, landscapers and farmers turn to hard-working, dependable New Holland equipment to help them master their many daily tasks. For 124 years and counting, New Holland has listened to customer's needs and responded with equipment that performs beyond expectations. The proof: New Holland recently celebrated its 250,000th skid steer loader manufactured.

Attachments	18/19

WCM AWARD RECIPIENT

New Holland is proud to announce its Wichita, Kansas manufacturing plant has received the **Silver Level World Class Manufacturing (WCM)** certification for the manufacturing of skid steer loaders and compact track loaders. As one of the highest standards for the integrated management of manufacturing plants and processes, WCM identifies objectives such as zero injuries, zero defects, zero breakdowns, and zero waste, and recognized New Holland's improvements in plant professional maintenance, level of detail, and motivation of operators.

WHAT'S ON YOUR "TO-DO" LIST?

New Holland Construction equipment does more than dig, lift and load. The versatility of these machines makes you more productive.

REAL-TIME EQUIPMENT MONITORING, ANYTIME, ANYWHERE

Take control of your fleet—wherever you are—with New Holland FleetForce™ telematics. Unlike other systems, FleetForce tracks location even when machines are turned off. Some of the benefits of FleetForce:

- Know the location and status of every machine in your fleet
- Track machine utilization and identify inefficiencies and excessive idling to save money and fuel
- Increased security with geo-fencing, curfew, motion sensing
- Better maintenance scheduling with automatic alerts and diagnostics
- Faster, more accurate job costing with machine hours and fuel reports

MORE THAN 250,000 BUILT TO DATE. New Holland Construction marks two milestones—250,000 skid steer loaders manufactured to date and the 45-year anniversary of its patented Super Boom™ loader —two clear examples of New Holland’s long and ongoing commitment to provide innovative and reliable construction equipment to its customers.

HANDLE BIGGER LOADS AND MOVE ‘EM FASTER

No matter what your line of work — landscaping, farming or construction — you’ll complete your jobs more effectively with a New Holland 200 Series skid steer loader. It’s the skid steer you would want on the job — one that’s durable, reliable and productive.

Excellent dump height and reach

The patented New Holland Super Boom® vertical lift linkage delivers maximum reach at maximum height, allowing you to precisely place loads in the center of trucks.

Rock solid stability

A smooth, stable ride results from a new, longer wheelbase, low center of gravity and correct front-to-rear weight distribution.

Excellent visibility

Better visibility allows you to work more confidently and quickly to improve your overall efficiency. A lower door threshold allows for better sightlines to the bucket cutting edge and to the trench, and the see-through area on the cab roof provides a clear view to the bucket at full height. Rear visibility is among the best in the industry due to a large window, low engine hood and no rear frame towers.

Service made easy

Long service intervals mean New Holland skid steers spend less time in the shop. The swing-out rear door and hood provide easy access to maintenance checkpoints. You can access engine oil, fuel fill, hydraulic oil, coolant and radiator points without tools.

Unmatched access

The entire cab and boom lift assembly tilts forward for unrivaled access to components and easy cab cleanout.

Built-in comfort

The wide cab offers superior operator comfort and visibility to critical areas, allowing operators to work with a new level of confidence and speed.

MODEL	Gross Engine Power hp (kW)	Net Engine Power hp (kW)	Rated Operating Capacity @ 50% Tipping Weight, lbs (kg)	Lift Linkage
L213	49 (36)	46 (34)	1,300 (590)	Radial
L216	60 (45)	57 (42)	1,600 (725)	Radial
L218	60 (45)	57 (42)	1,800 (818)	Super Boom® Vertical
L220	67 (50)	64 (48)	2,000 (905)	Super Boom® Vertical
L221	74 (55)	68 (51)	2,100 (953)	Radial
L228	74 (55)	68 (51)	2,800 (1270)	Super Boom® Vertical
L234	90 (67)	84 (63)	3,400 (1542)	Super Boom® Vertical

WORK ANYWHERE, ANYTIME, WITH HIGH RETURN ON INVESTMENT (ROI)

New Holland 200 Series compact track loaders allow you to move bigger loads and work with a higher level of confidence, comfort and speed. These models hold fast to steep slopes and move easily through muddy or sandy terrain to complete jobs quickly and efficiently. Low ground pressures allow these machines to float over terrain in any weather condition, making them perfect for Landscaping and Nursery applications.

Outstanding breakout forces and dump height

With the patented Super Boom® vertical lift linkage, New Holland compact track loaders provide you with some of the best breakout forces and dump heights in the industry.

High-performance engines

Turbocharged engines feature externally cooled EGR (exhaust gas recirculation) for efficient air handling and high engine power density with the shortest load response time.

Comfortable, sealed and pressurized cab

Optional sealed cab minimizes noise and dust. The full-view windshield provides an outstanding view. A heater/defroster kit and optional air conditioning allows you to control the climate in any weather.

A smooth ride and longer track life

New Holland's low-profile undercarriage design uses steel-embedded tracks that roll on rubber instead of steel to give you a smoother, quieter ride and longer-lasting tracks. The undercarriage design has fewer moving parts than competitive designs, and the simplified carrier design includes more open areas to improve track cleanout and extend track and carrier life. Lifetime sealed and lubricated rollers and idlers reduce your maintenance costs.

MODEL	Gross Engine Power hp (kW)	Net Engine Power hp (kW)	Rated Operating Capacity @ 50% Tipping Weight, lbs (kg)	Lift Linkage
C227	74 (55)	68 (51)	2,700 (1225)	Radial
C232	74 (55)	68 (51)	3,200 (1451)	Super Boom® Vertical
C234	90 (67)	84 (63)	3,400 (1542)	Radial
C237	74 (55)	68 (51)	3,700 (1678)	Super Boom® Vertical
C238	90 (67)	84 (63)	3,800 (1723)	Super Boom® Vertical

MAXIMUM FORCE, SURGICAL PRECISION

With extreme lifting, digging and breakout forces at either end, New Holland C Series loader backhoes save you time whether you're lifting, trenching, loading or pushing. Superior dump reach enables operators to dump material into the truck center for faster loading and increased payloads.

You accomplish more every day with superior performance where it counts:

- Backhoe bucket digging force up to 12,969 lbs.
- Loader lift capacity up to 11,118 lbs. to full height
- Loader breakout force up to 14,712 lbs.

MODEL	Gross Engine Power hp (kW)	Net Engine Power hp (kW)	Backhoe Dig Depth ft-in (mm) Standard Stick	Dig Depth Extended Stick ft-in (mm)
B95C	97 (72)	95 (71)	14' 6" (4420)	18' 5" (5613)
B95C TC	97 (72)	95 (71)	14' 6" (4420)	18' 5" (5613)
B95C LR	97 (72)	95 (71)	15' 6" (4724)	18' 11" (5765)
B110C	110 (82)	108 (81)	15' 6" (4724)	18' 11" (5765)

Industry-leading comfort and visibility

The spacious six-post cab features floor-to-ceiling windows for outstanding visibility, built-in comfort features to reduce operator fatigue and available pilot controls for added convenience.

Lower emissions, less fuel

New Holland C Series loader backhoes comply with the extremely strict Tier 4 Final regulations, dramatically cutting emissions levels. The SCR (Selective Catalytic Reduction) solution lets the engine run at peak performance for maximum power. It's simple, too – just top off the DEF (Diesel Exhaust Fluid) when refueling.

A better view to the trench

Ultra-narrow backhoe boom gives you enhanced visibility to the trench, and fully adjustable joystick controls give you ultimate convenience.

Long reach model for 22'4" reach

Choose the B95C LR Long Reach model for extended reach and dig depth.

Superior backhoe design

Using the curved boom design of big excavators, the backhoe gives you big digging performance. With in-line cylinders, effort is reduced, visibility is better and the general digging performance is enhanced. Dual swing cylinders provide smooth movement for faster positioning of the arm over the trench and increases the stability of the machine.

Tool Carrier Model

The B95C TC combines the powerful backhoe of the B95C with an advanced curved-boom loader with true mechanical self-leveling both up and down—perfect for working with pallet forks. The standard quick coupler makes switching from bucket to forks a breeze.

CLASS-LEADING POWER AT BUCKET AND HITCH

The U80C tractor loader from New Holland delivers 74 gross horsepower of clean power with its Tier 4 Final certified engine. You get responsive power at both bucket and hitch, so the U80C pays its way by loading, stacking, scraping and leveling. Add the Glide Ride option, and the boom cylinders become the equivalent of giant shock absorbers to stabilize the load while traveling.

Place loads precisely

The curved-arm loader linkage provided on the U80C tractor loader provides hydraulic bucket leveling for less spillback, as well as excellent reach at maximum dump height for truck loading. The unique reverse-mounted loader arm cylinders give you maximum bucket breakout force and superior dump speed on the bucket.

Superior scraping and leveling performance

Rugged Class II three-point hitch with controllable down pressure provides excellent scraping and leveling performance.

Smooth direction changes

The synchromesh transmission with power shuttle gives you smooth control and easy forward-reverse shuttling.

Operating comfort

The large, efficient, flat-deck operator platform provides easy-to-use controls and unobstructed views for outstanding visibility.

MODEL	Gross Engine Power hp (kW) Tier 4B	Net Engine Power hp (kW) Tier 4B	Lift Capacity to Full Height lbs (kg)
U80C	73.7 (55)	68.4 (51)	6,503 (2950)

MORE POWER. MORE PRODUCTIVITY. MORE VALUE.

You can work next to buildings, foundations and roads with greater confidence in a C Series compact excavator. They combine power, performance and versatility to make the very most of every minute of your day.

MODEL	SAE Net HP	Max digging reach (standard arm) ft-in (mm)
E17C	16.8 @ 2300 rpm	12' 10" (3910)
E26C	24.8 @ 2400 rpm	14' 8" (4470)
E33C	24.4 @ 2200 rpm	17' 0" (5180)
E37C	24.4 @ 2200 rpm	17' 5" (5300)
E57C	66.9 @ 2400 rpm	20' 2" (6150)
E60C	64.7 @ 2200 rpm	25' 5" (7750)

Big power in restricted spaces

C Series excavators deliver big digging and grading performance with SAE bucket breakout forces up to 8,490 lbf and dig depth up to 12.5 feet. Their compact design and zero/short tail swing mean you can dig, fill and grade in the most confined, congested areas. You can offset the excavator boom left or right within the operating range to match the situation. The C Series also offers more ground clearance and excellent dozer blade lift height for maneuvering and working in tough conditions.

More selection, more power

With six models from 1.7 to 6 tons, there's nothing small about the performance of New Holland compact excavators. All models offer an increase in horsepower compared to previous models, powered by quiet, fuel-efficient Tier 4 Final engines up to 66.9 horsepower.

Comfortable operation

Ease and comfort equate with operator productivity, so the wide C Series cab is designed for spaciousness, all-around visibility, comfortable seating and smooth control. New Holland's Auto Shift traveling system automatically downshifts when load increases to enhance travel torque on slopes and in difficult conditions, then shifts back up to secure a faster travel speed after the load decreases. The Auto Idle system activates when you are not using the operating levers to improve fuel efficiency.

AT HOME IN TIGHT SPACES AND IN TOUGH TERRAIN

New Holland compact wheel loaders do more than load. With dependable engine and hydraulic power and a choice of buckets and attachments, you can easily scrape, grade, haul and more.

MODEL	Gross HP Tier 4 Final hp (kW)	Net HP Tier 4 Final hp (kW)	Standard Bucket Capacity cu yd (m ³)	Top Speed, mph (kph)
W50C ZB	58 (43)	55 (41)	1.0 (0.76)	12 (20)
W50C TC	58 (43)	55 (41)	1.0 (0.76)	12 (20)
W80C	74 (55)	70 (52)	1.4 (1.07)	9 (14)
W80C HS	74 (55)	70 (52)	1.4 (1.07)	21 (33)

Rugged, effective Z-bar design

Z-Bar linkage design provides maximum breakout force, digging and lifting power for high-production load-and-carry applications. For applications where self-leveling is needed, like forklift work, consider the W50C TC Tool Carrier model.

Increased stability for fast, confident operation

A stable compact design allows you to work and maneuver easily in restricted spaces. A lower machine height and lower center of gravity increases the stability of New Holland compact wheel loaders so you can lift and move larger loads, travel smoothly and quickly, and operate with more confidence.

Spacious comfort and smooth control

The roomy cab incorporates a standard LCD display and natural, ergonomic controls.

Fast servicing

Fast, ground-level access to maintenance points and long service intervals reduce the time your operators spend on routine maintenance tasks.

THE RIGHT ATTACHMENTS FOR THE JOB.

Whatever you need to do—dig, lift, hammer, trench, plane, mow, sweep, rake or drill—there is a New Holland attachment that will get your work done. Choose from a wide array of attachments that expand the versatility of your machine and make you more productive. See your New Holland dealer about these specialty attachments and additional accessories to meet your specific demands.

BUCKETS

- 4 X 1 Bucket
- Concrete Bucket
- Dirt and Foundry Bucket
- Heavy-Duty Bucket

WORLD CLASS PRODUCTS DEMAND WORLD CLASS DEALERS

The purchase of a New Holland machine is just the beginning of our relationship together. Consider your experienced New Holland Construction equipment dealer as your local partner in productivity. Assistance in selecting the right model for your operation and developing an affordable leasing or financing plan through New Holland’s financing division, CNH Industrial Capital, are just a few advantages your local dealer can provide.

Your New Holland dealer’s full service capabilities bring you responsive support with genuine New Holland parts

and all makes coverage. More importantly, we are there wherever and whenever you need us with our fully equipped service vehicles. From customized maintenance programs to professional operator and technical training, our factory-trained service and parts experts are there to assist you with any of your equipment support needs.

Your business deserves nothing less than world class product, supported by a world class business partner. That’s your New Holland Construction Equipment dealer — your partner in productivity.
