

MORE PROVEN SOLUTIONS FOR LANDSCAPERS

Stay ahead of tomorrow with today's strongest lineup of equipment.

You've got the kind of workload that demands reliable equipment that keeps you on schedule. That's just what New Holland offers—a full-line of New Holland tractors and equipment that makes you and your landscaping crew more productive.

More stability, better visibility and compact design — advantages that lead to faster job completion

The key to your profitability is delivering quality outcomes to your customers and completing the work as quickly as possible so you can move on to pleasing your next customer. Stability and visibility are two New Holland hallmarks that allow your operators to work confidently and quickly in tough conditions to finish jobs faster. And, the streamlined, compact design of our tractors and equipment means you can put them to use in difficult, cramped, tight spaces that are all too common in landscaping and hardscaping projects.

Versatility that pays

New Holland tractors and equipment earn their way every day by handling multiple jobs for you through the seasons. Whether you need to dig a foundation, open a trench for an in-ground irrigation system, install a fence, plant trees and shrubs, grade driveways, shape retention swales, blast through snow drifts, clear sidewalks and parking lots of leaves and grass clippings—or all of the above—New Holland has you covered with dozens of attachments and equipment that are designed for versatility.

Everything you need at one location

You'll find your New Holland dealer offers the perfect package for landscape contractors, grounds maintenance crews, and turf managers. It includes the equipment, financing options, parts, service and support you need—all at one location.

- Boomer™ Tractors 4-5
- WORKMASTER™ Tractors 6-7
- Skid Steer Loaders 8-9
- Compact Track Loaders 10-11
- Compact Excavators 12-13
- Compact Wheel Loaders 14-15
- Loaders, Implements & Attachments 16-17
- Skid Steer & Compact Track Loader Attachments 18-19

Operator ease and efficiency strengthen your bottom line.

Boomer™ tractors are the ultimate landscaping assistant. They match up to a wide range of attachments that let you quickly handle a multitude of jobs. Reliability, comfort, easy operation and simple maintenance are what set Boomer tractors apart.

Boomer™ operating ease

Whether you choose a Boomer tractor with a cab or ROPS platform, you'll appreciate the natural, intuitive controls that allow you to get jobs done more efficiently without fatigue. Choose a Synchronized Shuttle Shift (SSS) transmission or a clutch-free hydrostatic transmission that offers simple two-pedal operation for forward and reverse, plus the convenience of cruise control.

Powerful, clean and fuel-efficient

Responsive engines meet strict Tier 4B Final emissions standards to reduce your carbon footprint and use less fuel to save you money.

Fast, simple maintenance

There's no need to lift the hood to fuel up or check engine oil, and when you do want to lift the hood, it opens easily in one piece without cumbersome panels or grills to move — and no need to remove the loader if you have one.

Peace of mind comes standard with a Boomer 35/40/45/50/55. These models are backed by **FREE Boomer Guard⁶ Limited Warranty**. 6 years of worry-free operation, 2 years of "bumper-to-bumper" coverage, plus an extra 4 years of powertrain protection.

The added comfort of an all-weather cab

New Holland offers a premium factory-installed cab on select Boomer tractor models. Climate control keeps you cool in summer and warm in winter to improve productivity year-round.

MODEL	GROSS HP	PTO HP	TRANSMISSION	3-POINT HITCH LIFT CAPACITY, lbs	OPERATOR PLATFORM
Boomer™ Series Compact Tractors					
Boomer™ 35	35	29.7 (gear), 28.0 (HST)	12 x 12 gear or 3-range hydrostatic	1,808	Foldable ROPS
Boomer™ 40	40	34.0 (gear), 32.0 (HST)	12 x 12 gear or 3-range hydrostatic	1,808	Cab or Foldable ROPS
Boomer™ 45	45	38.2 (gear), 36.0 (HST)	16 x 16 gear or 3-range hydrostatic	2,756	Cab or Foldable ROPS
Boomer™ 50	50	42.5 (gear), 40.0 (HST)	16 x 16 gear or 3-range hydrostatic	2,756	Cab or Foldable ROPS
Boomer™ 55	55	46.7 (gear), 44.0 (HST)	16 x 16 gear or 3-range hydrostatic	2,756	Cab or Foldable ROPS

Clear visibility and a clutter-free operating area

The distinctive New Holland sloped hood gives you an unobstructed view. Roomy, open platforms allow for easy entry and exit, and thoughtfully placed pedals and controls are easy to use but not in the way.

Operate it for less. Count on it for more.

Master your heavy workloads with **WORKMASTER™ Series tractors**. These rugged, reliable compact and utility tractors combine top performance with top value. They're tough on work, but easy on your wallet.

Strong construction

You can expect years of dependable, trouble-free performance from WORKMASTER tractors. Their heavy-duty construction and robust engine, transmission and rear axles allow them to handle heavy-duty jobs, day in and day out. Compact models are powered by three-cylinder diesel engines that deliver gutsy, fuel-efficient power. WORKMASTER utility tractors are available in six models from 40 to 62 PTO hp and feature higher-capacity hydraulics, so you can run larger implements and take on bigger jobs.

WORKMASTER™ compact tractors are covered by the **FREE Boomer Guard⁶ Limited Warranty**. 6 years of worry-free operation, 2 years of "bumper-to-bumper" coverage, plus an extra 4 years of powertrain protection.

Roomy open platform

The uncluttered open operator platform with comfortable seating gives you a great view and straight-forward operation.

Simple, easy-to-use transmissions

Depending on the model, WORKMASTER compact and utility tractors feature a range of transmission choices that let you best match the machine to the jobs you do every day—from loading mulch or topsoil into trucks, to mowing and maintaining 11 acres in the industrial park, and more.

Best-in-class value cab

All-weather WORKMASTER cab on the 55-to-75 hp models protects you from the elements and provides 316-degree visibility. It's loaded with comfort features, including a flat deck, air-suspension seat and instruction seat, heating and air conditioning, and Bluetooth radio.

MODEL	GROSS HP	PTO HP	TRANSMISSION	3-POINT HITCH LIFT CAPACITY, lbs	OPERATOR PLATFORM

WORKMASTER™ 75	74	60	12 x 12 power shuttle	3,500	WORKMASTER cab/Foldable ROPS

See more, do more with industry-leading visibility.

New 300 Series skid steer loaders are the all-season tools for digging, loading, grading and more. Their industry-leading 360-degree visibility, impressive loading performance and rock-solid stability pay off with faster travel speeds and increased working efficiency.

Wide, comfortable cab

One of the widest cabs in the industry means easy entry and exit and maximum day-long comfort. It's fully sealed and pressurized to minimize dust and noise. New, ergonomically designed joysticks allow for a lower-profile control grip and feature soft buttons to reduce fatigue in your thumbs.

More information, more visibility

A customizable eight-inch LCD display with an integrated back-up camera gives you a quick, convenient look at engine settings and performance information, all while providing even greater visibility to the rear of the loader for more efficient, safer operation. It's like having eyes in the back of your head.

Visibility is further increased with:

A wide door opening and the industry's lowest door threshold eases ingress and egress

A lower front door threshold for a clear sightline to the bucket and trench

A see-through area on the cab roof for a clear view of the bucket at full height

Low boom-arm shoulders for greater visibility around the cab

Reach your full potential

300 Series skid steer loaders provide some of the best breakout forces (up to 9,300 lbs.) and dump heights in the industry. Patented Super Boom™ lift linkage delivers maximum reach at full height for precise load placement.

MODEL	GROSS ENGINE POWER HP (kW)	NET ENGINE POWER HP (kW)	RATED OPERATING CAPACITY @ 50% TIPPING WEIGHT, lbs (kg)	LIFT LINKAGE
L316	60 (45)	57 (42)	1600 (725)	Radial
L321	74 (55)	68 (51)	2100 (905)	Radial
L318	60 (45)	57 (42)	1800 (818)	Super Boom™ Vertical
L320	67 (50)	64 (47.7)	2000 (905)	Super Boom™ Vertical
L328	74 (55)	68 (51)	2800 (1270)	Super Boom™ Vertical
L334	90 (67)	84 (63)	3400 (1542)	Super Boom™ Vertical

Stay grounded

With their optimal center of gravity and weight distribution, you'll work with more stability and confidence and get through tough spots with just the right amount of traction as load increases.

Creep mode

Available on electro-hydraulic models, creep mode lets you take precise control of slow-speed jobs like trenching and cold-planing.

Work anywhere with maximum traction, maximum visibility.

New 300 Series compact track loaders combine industry-leading 360-degree visibility with superior traction, so your operators can see more and do more in a wide range of challenging jobs. They'll work with more confidence, comfort and speed, increasing their productivity and your profitability.

Maximum traction with lower ground pressure

300 Series compact track loaders hold fast to steep slopes and move easily through muddy or sandy terrain to complete jobs quickly and efficiently. The tracks have a larger contact area than wheeled loaders, which spreads the load over a wider area. Lower ground pressure makes these units ideal for landscaping applications.

More information, more visibility

A customizable eight-inch LCD display with an integrated back-up camera gives you a quick, convenient look at engine settings and performance information, all while providing even greater visibility to the rear of the loader for more efficient, safer operation. It's like having eyes in the back of your head.

Wide, comfortable cab

One of the widest cabs in the industry means easy entry and exit and maximum day-long comfort. It's fully sealed and pressurized to minimize dust and noise. New, ergonomically designed joysticks allow for a lower-profile control grip and feature soft buttons to reduce fatigue in the thumbs.

Enjoy the ride even longer

The low-profile track undercarriage on 300 Series compact track loaders eases cleanout, reduces noise and increases durability. It also provides a smoother ride, thanks to steel-embedded tracks rolling on rubber instead of steel. In addition, fewer moving parts than competitive designs means less complexity—and complications—which adds up to longer track life.

MODEL	GROSS ENGINE POWER HP (kW)	NET ENGINE POWER HP (kW)	RATED OPERATING CAPACITY @ 50% TIPPING WEIGHT, lbs (kg)	Lift Linkage
C327	74 [55]	68 [51]	2,700 [1225]	Radial

C332	74 [55]	68 [51]	3,200 [1451]	Super Boom Vertical
C337	74 [55]	68 [51]	3,700 [1678]	Super Boom Vertical
C345	90 [67]	84 [63]	4,500 [2041]	Super Boom Vertical

Handle your most challenging jobs with big power and versatility.

Your New Holland dealer offers a full-line of **compact excavators** to handle your big lifting and digging jobs. They offer comfort, excellent visibility, extremely easy operation, and save you fuel while handling your toughest jobs.

More selection, more power

With seven models from 1.7 to 6 tons, there's nothing small about the performance of New Holland compact excavators. All models offer an increase in horsepower compared to previous models, powered by quiet, fuel-efficient Tier 4 Final engines delivering up to 66.9 horsepower.

Big power in restricted spaces

C Series excavators deliver big digging and grading performance with SAE bucket breakout forces up to 9,550 lbs and digging depth up to 12.6 feet. Their compact design and zero/short tail swing mean you can dig, fill and grade in the most confined, congested areas. You can offset the excavator boom left or right within the operating range to match the situation. The C Series also offers more ground clearance and excellent dozer blade lift height for maneuvering and working in tough conditions.

MODEL	SAE NET HP	MAX DIGGING REACH (STANDARD ARM) ft-in (mm)
E17C	16.8 @ 2300 rpm	12' 10" (3910)
E26C	24.8 @ 2300 rpm	14' 8" (4470)
E30C	24.8 @ 2300 rpm	15' 3" (4650)
E37C	24.4 @ 2200 rpm	17' 5" (5300)
E57C	66.9 @ 2400 rpm	20' 2" (6150)
E60C	64.7 @ 2200 rpm	25' 5" (7750)

Comfortable operation

Ease and comfort equate with operator productivity, so the wide C Series cab is designed for spaciousness, all-around visibility, comfortable seating and smooth control. New Holland's Auto Shift traveling system automatically downshifts when load increases to enhance travel torque on slopes and in difficult conditions, then shifts back up to secure a faster travel speed after the load decreases. The Auto Idle system activates when you are not using the operating levers to improve fuel efficiency.

Major lifting and loading power with precision control.

You get precise control with New Holland **compact wheel loaders**. Since there are less than two degrees of horizontal lift deviation, operators can focus on load placement instead of leveling to increase cycle times and finish jobs faster.

Fast, confident operation

A stable compact design allows you to work and maneuver easily in restricted spaces. A lower machine height and lower center of gravity increase the stability of New Holland compact wheel loaders, so you can lift and move larger loads, travel more smoothly and quickly, and operate with more confidence. The hydrostatic transmission allows for precise speed control with minimum shifting.

Rugged, effective Z-bar design

Z-Bar linkage design provides maximum breakout force, digging and lifting power for high-production load-and-carry applications. For applications where self-leveling is needed, like forklift work, consider the W50C TC Tool Carrier model.

Spacious comfort and smooth control

The roomy cab incorporates a standard LCD display and natural, ergonomic controls.

MODEL	GROSS HP TIER 4 FINAL HP (kW)	NET HP TIER 4 FINAL HP (kW)	STANDARD BUCKET CAPACITY cu yd (m ³)	TOP SPEED, mph (kph)
W50C ZB	58 (43)	55 (41)	1.0 (0.76)	12 (20)
W50C TC	58 (43)	55 (41)	1.0 (0.76)	12 (20)
W80C HS	74 (55)	70 (52)	1.4 (1.07)	21 (33)

Fast servicing

Fast, ground-level access to maintenance points and long service intervals reduce the time your operators spend on routine maintenance tasks.

More than loading

New Holland compact wheel loaders do more than load. With dependable engine and hydraulic power and a choice of buckets and attachments, you can easily scrape, grade, haul and more. The standard hydraulic quick coupler is compatible with all skid steer attachments.

Put the right tool to work with custom-engineered implements and attachments.

New Holland provides the ultimate selection of attachments to fit your Boomer™ or WORKMASTER™ tractors. Your New Holland dealer has what you need to grade landscapes, level roadways, backfill low spots, prepare seedbeds, mow the lawn, till the soil, dig a trench, and move dirt, gravel, mulch, or snow.

Loaders that are the perfect fit

New Holland front loaders are engineered to be the perfect fit for Boomer and WORKMASTER tractors. A common design element is the curved shape that provides better stress distribution and an excellent sight-line to buckets and attachments. You can add and remove attachments and the loader itself quickly without tools to move seamlessly between jobs.

The right tractor tools for the job

A tractor is more than an engine on wheels. With the right implements, you can accomplish huge tasks. Consider some possibilities:

- Landscape Rakes
- Front-mount Blades
- Rear Blades, Medium- and Heavy-duty
- Rotary Tillers
- Work EZ Box Blades
- Utility Backhoes
- Mid-mount Finish Mowers
- Rear-mount Finish Mowers
- Front-mount Snow Blowers
- Front-mount Rotary Brooms

Make your machine even more versatile.

New Holland skid steers and compact track loaders do a lot more than lift and load. Take a look at the wide array of attachments and you'll quickly see how the versatility of these machines can make you more productive. These are just some of the available attachments:

- 4 X 1 Bucket
- Angle Broom
- Augers
- Auto Rake
- Backhoes
- Brush Grapple
- Chipper
- Cold Planer
- Concrete Bucket
- Concrete Claw
- Dozer Blade
- Harley Power Box Rake
- Hopper Broom
- Laser Grader
- Log Grapple
- Mulching Head
- Pallet Forks
- Pick-Up Broom
- Post Driver
- Post Puller
- Power Side-Discharge Bucket
- Preparator Landscape Rake
- Rock Bucket
- Root Rake
- Rotary Cutter
- Scrap Grapple
- Silt Fence Installer
- Skid Hoe
- Snow Blade
- Snow Bucket
- Snow Blower
- Snow Pusher
- Steel Tracks
- Stump Grinder
- Tiller
- Tree Shovel
- Tree Spade
- Trencher
- Vibratory Roller

Easy attachment changes

Whatever you need to do—dig, lift, hammer, trench, plane, mow, sweep, rake or drill—there is a New Holland attachment that will get your work done. An optional hydraulic attachment coupler increases uptime and productivity on the jobsite by allowing operators to exchange attachments quickly and safely.

Auxiliary pressure release

A connect under pressure (CUP) hydraulic manifold is standard equipment on all models and allows for easy hook-up of all hydraulic attachments. By pushing on the fitting, line pressure is released from the machine. Lines can now be relieved without wrenches.

- A. Hydraulic oil return (case drain)
- B. Hydraulic oil supply. These fittings slide into manifold and when pressed in, any pressure within the manifold is directed to the hydraulic oil reservoir
- C. Drain line that flows to the tank
- D. Pressure vents

Optional high-flow auxiliaries shown

Attachment considerations:

As you evaluate your attachment options, here are some things to consider.

- Sized to machine
- Specific job to complete
- Hydraulic flow required

VALUE, SERVICE AND SOLUTIONS

There's a certain way of thinking that comes from living on a farm. Farming takes equal parts brain and brawn. Not to mention thick skin, calloused hands and a fair share of know how. Seasoned farmers know it helps to have equipment that's built by farmers, sold by farmers and used by farmers.

Support at every step. When you place your confidence in New Holland agricultural equipment, you get the finest in local support. Your New Holland dealer understands the many challenges you face and stands behind you at every step with the equipment, parts, service and financial solutions to make your job easier. Look to New Holland for a complete selection of equipment, including a full line of tractors, hay & forage equipment, harvesting, crop production and material handling equipment.

Quality parts and service. Turn to your New Holland dealer after the sale for expert, factory-trained service and genuine New Holland-branded parts. Your dealer has the very latest service updates and training to ensure your equipment keeps working productively season after season.

Financing solutions. Your New Holland dealer can tell you about smart ways to turn your financial challenges into opportunities with a portfolio of innovative financial services available through CNH Industrial Capital, including customized financing, leasing, insurance and the purchasing convenience of a Commercial Revolving Account.

For reliable equipment, parts and service — or just honest advice on farming and finance — turn to New Holland and your trusted New Holland dealer. We know. We're farmers, too.
